Dear Kaidi,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

At the age of 31 you can slip into overdrive as you begin to reap the benefits of the changes that have been so much a part of your life for the past two or three years. The basic structure is in place for you to expand your influence and harvest some initial results. There may be a hint of overconfidence, but your potential for good fortune is strong, and an optimistic attitude attracts success. The inner expanses of your soul stretch beyond your own identity and into the universe. You seek meaning in cosmic truth and your heart goes out to those who suffer in this world, even though - or perhaps because - your own capacity for suffering is so great. You have psychic talents based on a sensitivity to and understanding of what is unseen. This will reflect itself specifically in your daily working life, where a cheerful and positive approach ensures life-confirming experiences with colleagues. A positive expansion will occur this year in the work environment.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or

when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between November - 2018 to December - 2019. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 31. Three very important issues that make this year special are:

- You enter a period of financial expansion and good fortune in relationships, as

trends peak to enable you to harvest what you have earned. The tendency to overindulge is strong and some restraint is advised, but it is also important to celebrate the good things in life.

- A time that brings tremendous stimulus to your imaginative powers, and awakens dreams of a utopian future. Without the ballast of common sense, top-heavy dreams will collapse. Correctly channeled this is a time of spiritual development and growth.

- You experience an awakening that shakes you out of the rut and leads you to break out of professional and personal limitations so that you can pursue your own unique path of self-development. Travel and contact with fringe groups bring self-awareness.
