Report for July 21, 2017 to July 21, 2018

Dear Bhavani,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

After the struggles and challenges of the previous year, your 23rd year brings welcome expansion and renewed optimism. Everyone needs the dream of a pot of gold at the end of the rainbow to inspire them, and it is now that you begin to harvest some of the rewards for all the hard work you have done. You have a natural capacity to investigate hidden and secret material in your own psyche and in the world. An awareness of life as a process of constant death and rebirth brings psychological wisdom, gained through ruthlessly pursuing authenticity and emotional truth, whilst nurturing an understanding of the demons other people struggle with. This is expressed in the way you project a larger than life personality, and celebrate love, children and creativity with great gusto; you enter a period when there will be confidence-enhancing experiences in these areas. In addition, this is a year when you may want to make adjustments in your purpose or inner life mission. Some of the social groups you are involved with may have values that run at counter purpose to your own, yet you can gain valuable experience from relating to people with different values. The crucial question when looking at the balance of your life right now is just how much real satisfaction you are getting from your material attachments and the questionable comforts they bring. Perhaps there is more authenticity and intensity to be found in psychological transformation and the pursuit of non-material values. Even more specifically it is worth considering whether too many engagements with groups and superfluous friendships may be preventing you from focusing on your own creative potential.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period the major challenges lie in your working life, which probably needs to be made more efficient through streamlining working methods and improving interaction with colleagues. Health-wise too, this is an excellent time for working on self-improvement. This influence started growing around January - 2015 and will ebb out around December - 2017. You will probably encounter considerable frustration in your dealings with people in the working environment, and this process is designed to enhance your ability to compromise and to fit in for the good of the whole. To be happy at work now you need to work hard and have a plan. You do not have to have a subordinate role, if you are willing to shoulder responsibility. But you do not have to stick at a job which is beneath you either. Establish your credentials, work hard and advance.

In this period of your life there is a transition in your dealings with people, as you move from interacting with people on a practical level in connection with your work and daily life, to actually learning how to deal with partners on a one to one basis. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is the beginning of an outgoing epoch in your life; the big test comes in how you live up to partnership responsibilities. There are major challenges, demands are made on you, and you have to on the one hand resist giving others the blame for your issues, whilst on the other you need to establish limits to what you are prepared to accept in a relationship. You have to work at partnership now and make a commitment, though it is no use expending any more time on hopeless relationships. What you start now can last a long time.

Opportunities for Success

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between September - 2016 and October - 2017. This brings insight and good fortune connected with property and family. At this time you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more about how to create a nurturing and stimulating environment for yourself and those near to you.

After having built up comfortable circumstances in your domestic life, what is important for you between October - 2017 and November - 2018 is to appreciate the fruits of having a satisfying base, so that you can express yourself through creative activity and enjoy the art of living. Expansion and satisfaction come from living life to the full - through sport, festivity, love, children and romance. This is the time to fully be yourself without reservations or doubt. Larger than life characters will show you how through encouraging you to celebrate existence.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 23. Three very important issues that make this year special are:

- A time that brings the sense that structures that you have spent years building up are the subject of forces beyond your control which are dissolving them. The best course of action is to surrender and let go - when the ocean comes the castles of sand are swept away.
- A time that evokes a sense of confusion about what you want to do. Decisiveness is undermined, energy is dissipated. Sexually there can be listlessness and a longing for more magic. Above all it is difficult to be inspired by routine work. Longing leads to a new creativity.
- A series of challenges in relation to communication at work and at home, travel or project delays and other frustrations, slows you down and forces you to concentrate on learning basic skills and attending to detail. Think positive rather than succumbing to worry.
