Dear Samuel,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 20th year you continue the trend from the previous year in which you assert exactly what it is about you that makes you unique. The urge to differentiate yourself from the norm is strong. For you and your generation there is a willingness to experiment with social structures, and you are inclined to embrace revolutionary new ways of grouping with other people. Your particular way of expressing your uniqueness in this respect is through being controversial in style and in breaking norms connected with love and children. Being a true individual for you involves truly being yourself, whatever other people think. At 20, developing your skills and mental talents is paramount. This is a year in which you are absorbed by justice and issues of right and wrong, although there is a tendency to be subjective in your own judgment and a little bit too categorical. You have a humanitarian soul and feel a strong sense of solidarity with your fellow man. Your ideals are strong and unshakeable, especially as regards social matters, and you never compromise these ideals, though you will show flexibility if it means facilitating the evolution of a group or organization. This is expressed in the way you project a larger than life personality, and celebrate love, children and creativity with great gusto; you enter a period when there will be confidence-enhancing experiences in these areas. Despite the early revolutionary tendencies of the year, you are fully aware of the responsibilities weighing on you as you enter adult life, and you work hard to create a framework for growth into your twenties.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between November - 2018 to December - 2019. This leads to travel and an expansion of your skills

educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 20. Three very important issues that make this year special are:

- A time that evokes a sense of confusion about what you want to do. Decisiveness is undermined, energy is dissipated. Sexually there can be listlessness and a longing for more magic. Above all it is difficult to be inspired by routine work. Longing leads to a new creativity.
- There are mental challenges ahead, which - though you may at first doubt your abilities - you meet head on and overcome. Through the application of your powers of concentration, you build up proficiency in particular areas which stand you in good stead for the future.
- Your ethics and principles are put to the test as you take advantage of opportunities for expansion, travel and widening your intellectual horizons. You have a strong belief in the future, but you need to weigh risks against realities.
