Dear sklep@123master.pl,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

After some changes and unpredictability last year, in your 63rd year you are ready to settle and consolidate. There is a sense of satisfaction with what you have achieved, and this year you can successfully build on what you already have to both expand and enjoy life. You have the resources you need to widen your horizons and travel, or simply do more of everything that you like doing. There is also the sense that you know what life is about and understand your place in it. You may have felt that you have been up against the system in recent years, but this year there is the sense that the system is working in your favor.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenge is how you adjust to a phase in your life when material ambitions and professional achievement do not provide all the answers. There is a gnawing dissatisfaction, and a feeling that the many results you have attained in recent years are now getting more difficult to attain, or when attained are not inspiring enough. This is an influence that starts growing around January - 2015 and will ebb out around December - 2017. New goals and a new mission in life will come at the end of this phase, but right now if you want

happiness, you need to explore and structure your inner life. This means developing your spiritual nature, and enjoying creative processes that arise when you withdraw from the rat race and spend time on your own. It may be a lonely period, but if you build spiritual foundations, the next phase of your life will be rewarding.

In this period of your life there is a major transition which inaugurates a whole new epoch. In many ways this transition is welcome, because over the last few years it has seemed extremely difficult to get new projects off the ground, and in your heart you have realized that this is because the old formulas for success are redundant. Now you begin to get a glimpse of future possibilities. This is an influence that starts growing around December - 2017 and will ebb out around March - 2020. At times it seems that the challenges are heavy, but just to be able to envision a new plan or path for the future is extremely empowering, and much to be preferred to the sense of dissolution you experienced in the past. Knowing where to put your energy and commitment, you are willing to discipline your life, organize your time, and accept heavier demands for the sake of building a new path and new life goals.

Opportunities for Success

From September - 2016 to October - 2017 you capitalize on the knowledge and experience you have garnered earlier to make a concrete success of your life. Good fortune smiles on professional endeavors in this period, and you can expand your sphere of influence. Influential people will support you, and if you strive for recognition, you will achieve it. If you go for your hopes and dreams now, then your expectations have a good chance of being fulfilled.

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 63. Three very important issues that make this year special are:

- A wonderful period of growth, spiritual awareness and awakening of compassion, perhaps because you are swept up in an inspiring collective event, or through the

influence of a spiritual mentor, music, film or art. You attune to the rewards within your own mind.

- You experience a steroid boost that gives you the strength and courage to fight for what you want. Putting softer considerations aside you take a risk to expand your territory, traveling afar and meeting exciting people. You give yourself fully to your desires, both intellectually and bodily.

- Your imaginative center is awakened by an unexpected event or by a development in society, making you profoundly aware of how the psyche is shaped by huge forces - the media, government propaganda etc. - that are beyond your control.
