Dear veronica,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

Your 49th year is a year of achievement, growth and consolidation during which you build on established foundations and generally feel comfortable with the path you have carved out for yourself. There is a sense that you have been accepted by society and have an important role to play, and the need to prove yourself makes way for a sense of satisfaction as regards your achievements during your forties. Challenges now have a lot to do with an inborn resistance to asserting yourself and your desires. Your will is strong, but chastened by early failures when you put your head above the parapet, you put stumbling blocks in front of yourself, and hesitate when courage and action are required. To attain what you want in life, fear of failure must be overcome. These challenges have a lot to do with a latent insecurity that you feel when you are exposed emotionally, which happens in particular in intimate relationships, both in regard to sexual expression and sharing. Learning to loosen up emotionally, perhaps through therapy, is a prerequisite for a deeper and more satisfying sexual life, as well as feeling more secure in general. With a strong personal foundation, you are able to start a new phase of personal expansion and already this year you will reap the economical and social benefits of the efforts you have put in.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by

step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October - 2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 49. Three very important issues that make this year special are:

- A period when you are driven to investigate the deepest secrets and gain a new wisdom that transforms your understanding and beliefs. A journey can bring spiritual renewal, or contact with a mentor or the ideology of a group can profoundly change your ideas.
- There is a growing desire for excitement and change, and you are willing to take risks to realize this desire. This can bring changes at work, where you require more space and independence. In your private life there may be a need for more sexual experimentation.
- You put negative thoughts behind you and mobilize the power of positive thinking and faith in the future that is the basis of all growth and happiness. By visualizing the future you want, you plant the seeds for that future to grow.
