Report for September 16, 2017 to September 16, 2018

Dear Mary Sue,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 38th year there is a sense of exotic promise. New experiences are awaiting on the horizon, but you may not know what they are to be as yet. After a period of effort and measured growth, the urge is now to pull out all the stops and expand your horizons. It may seem as if your local environment cannot supply the inspiration that you need, in which case you may start investigating possibilities farther afield. There is a growing sense that meaning is more important than achievement, and therefore a need to expand on the new circle of acquaintances you acquired last year to attain personal growth and consciousness change.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make

constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October - 2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 38. Three very important issues that make this year special are:

- Unpredictable events raise your adrenal levels and bring out the fighting spirit in the coming months, making you more inclined to take considerable risks. Whilst the samurai spirit is awakened, you may provoke others unnecessarily.
- You enter an exciting and stimulating period which radically extends your

horizons. This can bring long-distance travels and contact with alternative cultures, and it can also bring new intellectual interests of a non-conformist nature.

- Revolutionary changes in the way you think about life and the future take hold, and your horizons dramatically expand through new intellectual interests or long-distance travel. This is a time to make a break with the limitations of the past and experiment with a new future.
