Written and designed by Adrian Duncan

# Birth Report

**Dear Jey Clifford,**

Thank you for ordering your Birth Horoscope MiniReport, which is sure to help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

In designing this short reading, I have focused on what is especially unique to you. But - even more important - I have identified the most crucial influence on your immediate future and this will enable you to optimize good fortune in your life. Read on and prepare yourself for a great journey...

The strongest influence in your birth horoscope is "Mercury Trine Uranus". This is both a great talent and a great challenge. Know yourself, and you will be able to optimize the talent and overcome the challenges.

## **How this influence affects your personal life:**

Other things being equal you have a very quick mind, and you attract attention through your ability to give conversations a surprising turn. You are quickly bored by conventional waffling and you are prepared to say anything, repeat anything, to give conversation more interest. Although at times you can be very amusing, this tendency easily leads to confusion and misunderstandings in relationships. You break the flow of communication - a habit you learned in childhood - and this leads to a rather stressful atmosphere in intimate relationships. You need to involve yourself with friends or groups which have similar interests to you, rather than expecting to get all the mental stimulation you desire from your partner. When you get bored in intimate relationships, you tend to say and do the opposite of what is expected, just to get results. You also tend to make provocative statements. This can be exasperating for the partner.

## **How this influence affects your professional life:**

You have some mental qualities that border on genius. Being receptive to signals in the environment which go over the head of the average

person, you know how to integrate radical new ideas into your work. You have the inventor spirit, and you are always willing to experiment with new methods. By developing your knowledge of the scientific functioning of the mind, you can be a driving force for renewal at work. You may be skilled at technical matters, computers or untraditional, even provocative subjects. It is important for you to learn to put your ideas across in a constructive manner however. You have a tendency to talk at cross purposes, without ensuring the other person is following you. Coupled with this you may also be impatient with people as they fumble with old concepts and ideas. You can be provocative, or go off at a tangent - and this may only serve to alienate you. Clarify your intentions when you communicate. You have a talent for exotic languages.

As you mature, you will get better and better at making the most of your talents and changing unwanted behaviour. Opportunities arise because the universe does not stand still. In astrology current trends in your life are identified by following the movement of the planets and how they relate to your birth horoscope - called planetary transits. Below I have identified the single most powerful influence in your life right now. When you understand this influence, you'll know exactly how to make the most of the opportunities presented to you.

The most powerful influence in your life right now is "Neptune Sextile Venus". Transits tend to last for about a year, and there are three intense peaks of power during that period. If you don't get it right first time, understanding the following trend will certainly help you get it right the last time!

### **How this influence affects your personal life:**

During this period you can develop a greater awareness of the needs of the heart to find lasting values which can be relied on to bring happiness and contentment. It is an excellent time for spiritual discovery and devotion. You need to contact people now who allow themselves to be inspired by aesthetic values. These contacts will enrich your life. If you have any creative or artistic interests, set time aside to pursue these interests now. It is also a time in which love and romance can blossom and take flower. And just as Spring blossoms

bring their blessings yet disappear so fast, love at this time is full of promise, yet rarely delivers lasting results. There is a tendency to get attracted to musical, artistic or spiritual people at this time, who express ideas which really appeal to your dreams. During the course of time, however, reality impinges on romance to reveal a scenario of normality and human weakness, which deflates the early romantic idealisation. The point of love in this period is to refine the heart and bring one in touch with the divine. "Better to have loved and lost, than never to have loved at all".

### **How this influence affects your professional life:**

During this period you must ask yourself what has value for you. New people come into your life at this time, enhancing the quality of your professional relationships. Through their influence you should be able to discover a new appreciation of your social life, and a greater awareness of the importance of aesthetic factors for enjoyment. It is an excellent period for developing your artistic and creative interests. Indeed it might pay you to put your ambitions on the back-burner for a while, so that you can cultivate your capacity to experience life's pleasures. Life offers many distractions at this time, and you can be led astray by your desire for magical experience. There is a great emphasis on matters of the heart, though promises made at this time are not destined to pass the test of time. You can also be seduced by economic sandcastles. Whereas it is good to seek greater quality and integrate more beauty and taste into projects, care has to be taken not to invest in glittering ventures which show surface promise but no long-term stability.

Now you know something about what makes you special, and something about what makes this period of your life special. However, this MiniReport has not taken into account two very important factors, which make a chart reading even more accurate. When you also supply your birth time and birthplace, the planets can be placed in context in your horoscope using the 12 houses. With this information you can obtain a really accurate description of your challenges and potentials regarding work, love, sexuality, attachment and a lot more. I'd love you to take advantage of this opportunity to get a full horoscope report of about 20+ pages delivered to your email.
