Dear Ashendu,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

Your 43rd year is a time when you are aware that major challenges are looming in the future, particularly in relation to authorities and partnership. Whilst you feel that relationships bring limitations, this is also a time when you are willing to rise to the challenge and accept more responsibility. Challenges now have a lot to do with family circumstances that have been restrictive or repressive, or challenging in other ways. This has led to a certain emotional defensiveness which gives effective protection on the one hand, but stands in the way of harmonious developments later, that could bring a rewarding family life. It pays to soften up. These challenges have a lot to do with a latent insecurity that you feel about your mental abilities. Problematic communication with siblings and people at school early in your life, undermine confidence and effect educational performance later on. Yet study and intellectual discipline bring stronger and stronger results as you get older. With confidence rising as the year progresses, you have a vision about how you would like the year ahead to develop, and you can achieve the goals you set yourself through hard work, good luck, and through help from people who support you on your path.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the

challenges that naturally arise during the course of the year.

In this period of your life the major challenges lie in breaking down emotional barriers between yourself and those you love. This influence started growing around January - 2015 and will ebb out around December - 2017. There are hidden complexes both in yourself and in partners, which can prevent intimacy, and these will be especially reflected in sexual frustrations that at their root are to do with anxiety. Working with therapy can loosen these blockages. Dealing with faceless authorities like the tax, police, council, trade unions and powerful financial institutions can also be a challenge at this time, because you are likely to meet a power over which you have no control. Generally this is a very challenging period emotionally, because you have to deal with more extreme circumstances than normal but you develop great resilience and survival power.

In this period of your life old emotional challenges make way for new philosophical growth. On the one hand there are still a great number of issues concerned with emotional relationships, sexuality and sharing that you are working on. There are times when it feels like you are in a state of purgatory, and that a cloud obscures the future. Nevertheless you will soon emerge from this rather heavy emotional state, and see the path ahead. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In the process you gain an overview of what the future will bring, and develop the skills and understanding necessary to tackle it. You will develop your full intellectual potential and build up your influence in the world through travel and cultural exchange. A new set of beliefs will take form, bringing a positive view of the future.

Opportunities for Success

After a period of living life to the full through creative projects, children and festivities, new possibilities arise in your working environment from September - 2016 to October - 2017 because of opportunities abroad, or through an expansion of your area of expertise and encounters with intellectually inspiring colleagues. This is a time to expand the influence of your ideas and disseminate information that you really believe in. It is possible that there is more work to do, but it is more interesting work and it brings personal development for you.

Having thoroughly established considerable success in your working environment, you are ready to build up one-to-one relationships through partnership in the period from October - 2017 to November - 2018, expanding your sphere of influence and reaching out socially. Fortunate meetings with cosmopolitan and wise people can

bring happiness and a new optimistic view of your potential to make an impact on others.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 43. Three very important issues that make this year special are:

- A period that brings intense experiences in relationships on an erotic and psychological level, perhaps because your tastes and values are undergoing a deep transformation. Economic and emotional bonds that have outlived their relevance are dropped and replaced by new.
- In this phase of your life you are prepared to break out of the mold and divert from the path of least resistance to realize your own unique qualities and destiny. You liberate yourself from authorities and limiting structures, and are inspired by fringe groups and individuals.
- There are mental challenges ahead, which - though you may at first doubt your abilities - you meet head on and overcome. Through the application of your powers of concentration, you build up proficiency in particular areas which stand you in good stead for the future.
