Dear k,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During your 51st year there are pressing professional issues that have to be addressed. This is a time when challenges pile up, both in connection with your relationship to authorities, and in terms of your goals and ambitions. You need to define exactly where you wish to apply yourself, and exactly what you want to achieve. As you are under pressure now, this is not easy, but with extra effort and determination you can carve out a position for yourself that can stand you in good stead for the next five years at least. Challenges now have a lot to do with dealing with long term issues of dissolution, chaos or suffering in the society in which you live. Wise beyond your years, you are witness to the eternal truth that everything dissolves with time, and this in turn can undermine your will to build things up. The responsibility you feel needs to be channeled into active compassion. These challenges have a lot to do with a latent insecurity that you feel together with friends and groups. Early social experiences have made you defensive in relations to social demands, yet time will show that you can take a position of responsibility in relation to a group and help it grow, even if you maintain the position of an outsider. Fortunately, this is also a time when a further expansion of your influence is possible, if you adopt a positive and visionary attitude. Bearing in mind your achievements so far, you are justified in pursuing a confident and self-assured path.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your

vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges lie in breaking down emotional barriers between yourself and those you love. This influence started growing around January - 2015 and will ebb out around December - 2017. There are hidden complexes both in yourself and in partners, which can prevent intimacy, and these will be especially reflected in sexual frustrations that at their root are to do with anxiety. Working with therapy can loosen these blockages. Dealing with faceless authorities like the tax, police, council, trade unions and powerful financial institutions can also be a challenge at this time, because you are likely to meet a power over which you have no control. Generally this is a very challenging period emotionally, because you have to deal with more extreme circumstances than normal but you develop great resilience and survival power.

In this period of your life old emotional challenges make way for new philosophical growth. On the one hand there are still a great number of issues concerned with emotional relationships, sexuality and sharing that you are working on. There are times when it feels like you are in a state of purgatory, and that a cloud obscures the future. Nevertheless you will soon emerge from this rather heavy emotional state, and see the path ahead. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In the process you gain an overview of what the future will bring, and develop the skills and understanding necessary to tackle it. You will develop your full intellectual potential and build up your influence in the world through travel and cultural exchange. A new set of beliefs will take form, bringing a positive view of the future.

Opportunities for Success

After a period of living life to the full through creative projects, children and festivities, new possibilities arise in your working environment from September - 2016 to October - 2017 because of opportunities abroad, or through an expansion of your area of expertise and encounters with intellectually inspiring colleagues. This is a time to expand the influence of your ideas and disseminate information that you really believe in. It is possible that there is more work to do, but it is more interesting work and it brings personal development for you.

Having thoroughly established considerable success in your working environment, you are ready to build up one-to-one relationships through partnership in the period

from October - 2017 to November - 2018, expanding your sphere of influence and reaching out socially. Fortunate meetings with cosmopolitan and wise people can bring happiness and a new optimistic view of your potential to make an impact on others.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 51. Three very important issues that make this year special are:

- A period when you are put under considerable psychological pressure and there may be power battles too, but this only serves to awaken the samurai spirit within you. This leads to a new recharged sexual life and a positive transformation of your work situation.
- A time that makes you keenly aware of what is missing from your life and work that would satisfy your dreams and imagination. Music and the arts bring renewed pleasure, repetition and routine undermine your spirit. This is the time to express your creative communicative powers.
- You are energized, courageous and willing to take a risk. Your conviction that you are right cannot be deflected, and this can lead you into confrontation with people who have a different opinion, or to people who feel bulldozed by your gung-ho attitude.
