Read on and prepare yourself for a great journey...

The Significance of your Age

The age of 29 is a time when much of what you have achieved comes up for revision. Life has come full circle, lessons have been learned, experiences harvested. The big question now is: how much of your achievement was geared to satisfying the demands of parents and society, however unconsciously, and how much is an expression of who you are as a unique individual? You have a unique perspective on your life now, and you can gain an insight and understanding that will enable you stake out a future for yourself. The fulfillment that you have worked so hard for in your twenties may still be eluding you, and if this is the case, now is the time to define what you want to achieve in your life, and not what other people want you to achieve. What you decide now is crucial, and will form the framework for your thirties. Life is too short to spend even one more year going on a path that does not satisfy you. Challenges now have a lot to do with your opinions and views about overall issues in life, which tend to get rigid or dogmatic with age. Learning to be open to new ideas from other people is the key to intellectual flexibility, and you would be wise to avoid ideological confrontation, instead training yourself to express powerful ideas in a convincing manner. These challenges have a lot to do with a latent insecurity that you feel about your mental abilities. Problematic communication with siblings and people at school early in your life, undermine confidence and effect educational performance later on. Yet study and intellectual discipline bring stronger and stronger results as you get older. Don't be afraid to radically transform your life, whatever changes now realigns you with your fate, and brings the best conditions for future growth.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

Opportunities for Success

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from September - 2016 to October - 2017 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves

to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 29. Three very important issues that make this year special are:

- You experience setbacks and trials of endurance when trying to achieve your goals - particularly in your dealings with male authorities. By steeling your will to overcome these challenges, you develop the necessary muscle to win through with your agenda.
- You are challenged to become more self reliant, both in your love life and in regard to your economy. Romantic illusions founder on the rocks of reality, but this can be a healthy process which ultimately can provide the conditions for stability in relationships.
- Your hopes and dreams meet the demands of reality. If you are trying to escape from trying circumstances, you are reminded of your social responsibilities. If you understand how to work with limitations, you may be able to establish the foundations for a creative or social idea.
