Dear Ann,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

Your 44th year is characterized by a strong awareness of the limitations imposed by both your personal and professional relationships. You meet resistance to your plans, and this leads you to consider making structural adjustments in your goals. There can be changes in your career, and serious re-evaluations of your emotional commitments. Setbacks are liable to occur, and a patient attitude is essential to overcome the challenges that arise. Challenges now have a lot to do with special difficulties encountered early in your life, which have made you overcautious or insecure in communication. Relations with brothers or sisters, or difficulties at school have evoked a certain reticence in expressing your ideas. You learn to proceed at a slow and steady pace, however, and the work you do, you do thoroughly. These challenges have a lot to do with a latent insecurity that you feel in offering your services to others. You tend to aim low and get stuck in work that is monotonous and without perspective, and perhaps this comes from low expectations or criticism when you were young. With maturity you learn to structure your daily life, develop administrative skills and assume greater responsibility. This is a year when you gain considerable insight, but can make hasty judgments.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the

challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around December - 2017 and will ebb out around March - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

Opportunities for Success

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from November - 2018 to December - 2019 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 44. Three very important issues that make this year special are:

- You experience an awakening that shakes you out of the rut and leads you to break out of professional and personal limitations so that you can pursue your own unique path of self-development. Travel and contact with fringe groups bring self-awareness.
- You have the time and the will to mobilize your energy over the long term to produce creative results. This is a great time for physical work, training and

building. Good planning and a willing assistant can bring lasting practical results in your life.

- There is structural change, which affects aspects of your professional and personal life that have grown rigid and inimical to growth. The time has come to create more space and freedom, liberating yourself from sterile duties and building an inspiring future.
