Dear H.A.Yogendra rao,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

At the age of 27 you feel a deep connection to your soul, and - perhaps for the first time - there is a sense of emotional maturity, a circle completed. With emotional currents running so deep, you are naturally confronted with the ghosts of the past... your emotional inheritance. This awakens your own paternal/maternal drives as the urge to care for a family in your own unique way makes itself felt. You do what you can this year to create a secure environment, a cozy home, and a contented family. Basically, when your emotions are aroused, you tend to reach for the moral high ground and cultivate a sense of righteousness, which may put others in the wrong, although at other times you are open and generous. You are especially sensitive about your mental attributes, which were profoundly formed through sibling relationships and early educational experiences. It is during the course of this year that you get a sense of your destiny, and to a certain extent you are torn between the pull of the past and your family inheritance, and the pull of the future. Nevertheless, a buoyant optimism gives you the belief that the future will be good for you, and you are ready to broadcast your convictions to the world and widen your horizons.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the

challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between November - 2018 to December - 2019. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 27. Three very important issues that make this year special are:

- A period when the frameworks that you have relied on for so long are undermined and the edifice falls. It is a time to abandon outdated power structures and to build up new foundations from scratch. There can be power struggles, and you find strength by connecting to a deep inner survival need.
- You experience an awakening that shakes you out of the rut and leads you to break out of professional and personal limitations so that you can pursue your own unique path of self-development. Travel and contact with fringe groups bring self-awareness.
- A time that evokes a sense of confusion about what you want to do. Decisiveness is undermined, energy is dissipated. Sexually there can be listlessness and a longing for more magic. Above all it is difficult to be inspired by routine work. Longing leads to a new creativity.
