Dear dimitrnka,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During your 51st year there are pressing professional issues that have to be addressed. This is a time when challenges pile up, both in connection with your relationship to authorities, and in terms of your goals and ambitions. You need to define exactly where you wish to apply yourself, and exactly what you want to achieve. As you are under pressure now, this is not easy, but with extra effort and determination you can carve out a position for yourself that can stand you in good stead for the next five years at least. Challenges now have a lot to do with dealing with long term issues of dissolution, chaos or suffering in the society in which you live. Wise beyond your years, you are witness to the eternal truth that everything dissolves with time, and this in turn can undermine your will to build things up. The responsibility you feel needs to be channeled into active compassion. These challenges have a lot to do with a latent insecurity that you feel about your mental abilities. Problematic communication with siblings and people at school early in your life, undermine confidence and effect educational performance later on. Yet study and intellectual discipline bring stronger and stronger results as you get older. Fortunately, this is also a time when a further expansion of your influence is possible, if you adopt a positive and visionary attitude. Bearing in mind your achievements so far, you are justified in pursuing a confident and self-assured path.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your

vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around December - 2017 and will ebb out around March - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

Opportunities for Success

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from November - 2018 to December - 2019 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 51. Three very important issues that make this year special are:

- There are daunting challenges ahead which initially undermine your self confidence and belief in your capabilities. Progress is slow or non-existent as obstacles arise at every turn. Through concerted effort and perseverance you prove to yourself that you can do it.

- An awakening of your capacity to experience love at its highest level, especially through spiritual experience and the arts. Whilst this is a romantic period, personal love is often experienced as illusory or unrequited. It is the universal nature of love and compassion that enriches.
- A period that represents a time in your life when buried issues rise to the surface calling for awareness and change. This is the time to recognize situations that are losing energy, and abandon lost causes, embarking on a period of renewal and deep-rooted change.
