**Dear Lillian,**

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

Your 83rd year is a time when you combine a lifetime's wisdom with a deep acceptance and surrender to the forces that drive the cosmos of which you are an integral part. Wisdom comes through attunement with the convictions and beliefs that have survived the test of time. Your diplomatic abilities are excellent and you have a natural sense of what is right and fair, which means that you go a long way in the cause of justice. A natural ease with relationships makes rewarding partnership a constant blessing in your life. You love to learn, and this is expressed in aesthetic and cultural interests and talents. This will reflect itself in great confidence about your personal worth and bring financial prosperity in the current year, not just for you, but also for those who benefit from your grasp of financial issues. Surrender is to a greater truth that puts your whole life into perspective. You and your generation are subject to a certain chaos in areas connected with employment and the daily running of things, and long to create order and efficiency. Personally you express these ideals in your choice of lifestyle, which is essentially unconventional and non-material, as you are always searching for a direction in life that holds spiritual meaning. You develop a powerful conviction this year of what is really meaningful - all else falls by the wayside.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by

step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

### **Opportunities for Success**

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October - 2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

## **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 83. Three very important issues that make this year special are:

- A period when you freely embark on a psychological self-improvement program that leads you to abandon weaknesses that have been conditioned in the past and embrace a more authentic and aware personal style. You find renewed strength from the deepest source of your being.
- A spiritual milestone, making you once again aware of behavior that is affected by emotional issues connected with sorrow, loneliness and loss. Nevertheless it is also a time when you tune in to your deepest creativity and spirituality.
- A series of challenges in relation to communication at work and at home, travel or project delays and other frustrations, slows you down and forces you to concentrate on learning basic skills and attending to detail. Think positive rather than succumbing to worry.
