Report for May 11, 2017 to May 11, 2018

Dear leeann,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your thirties and a new decade, it is important to harness the lessons you have learned from your twenties, whilst letting go of the parental and social conditioning that could, if not re-examined, lead you along a path that is not uniquely yours. During the course of this year, you will lay the foundation stones for a new life structure on which you can build your life, especially professionally, over the next 10 years. Challenges now have a lot to do with your opinions and views about overall issues in life, which tend to get rigid or dogmatic with age. Learning to be open to new ideas from other people is the key to intellectual flexibility, and you would be wise to avoid ideological confrontation, instead training yourself to express powerful ideas in a convincing manner. These challenges have a lot to do with a latent insecurity that you feel when you are exposed emotionally, which happens in particular in intimate relationships, both in regard to sexual expression and sharing. Learning to loosen up emotionally, perhaps through therapy, is a prerequisite for a deeper and more satisfying sexual life, as well as feeling more secure in general. It is now you need to apply all your energy and willpower into achieving what you really want for yourself - not what others want for you. By nature you are a quick thinker and mentally competitive, and achievements come through networking and getting your message across. Protecting your assets is a strong motivating factor, but you are willing to take risks and face dangers to add to your gains. By mobilizing your resources for battle, setting your sights, and investing all your energy, you embark on the first steps towards creating your own unique and independent future.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges lie in breaking down emotional barriers between yourself and those you love. This influence started growing around January - 2015 and will ebb out around December - 2017. There are hidden complexes both in yourself and in partners, which can prevent intimacy, and these will be especially reflected in sexual frustrations that at their root are to do with anxiety. Working with therapy can loosen these blockages. Dealing with faceless authorities like the tax, police, council, trade unions and powerful financial institutions can also be a challenge at this time, because you are likely to meet a power over which you have no control. Generally this is a very challenging period emotionally, because you have to deal with more extreme circumstances than normal but you develop great resilience and survival power.

In this period of your life old emotional challenges make way for new philosophical growth. On the one hand there are still a great number of issues concerned with emotional relationships, sexuality and sharing that you are working on. There are times when it feels like you are in a state of purgatory, and that a cloud obscures the future. Nevertheless you will soon emerge from this rather heavy emotional state, and see the path ahead. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In the process you gain an overview of what the future will bring, and develop the skills and understanding necessary to tackle it. You will develop your full intellectual potential and build up your influence in the world through travel and cultural exchange. A new set of beliefs will take form, bringing a positive view of the future.

Opportunities for Success

After a period of living life to the full through creative projects, children and festivities, new possibilities arise in your working environment from September - 2016 to October - 2017 because of opportunities abroad, or through an expansion of your area of expertise and encounters with intellectually inspiring colleagues. This is a time to expand the influence of your ideas and disseminate information that you really believe in. It is possible that there is more work to do, but it is more

interesting work and it brings personal development for you.

Having thoroughly established considerable success in your working environment, you are ready to build up one-to-one relationships through partnership in the period from October - 2017 to November - 2018, expanding your sphere of influence and reaching out socially. Fortunate meetings with cosmopolitan and wise people can bring happiness and a new optimistic view of your potential to make an impact on others.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 30. Three very important issues that make this year special are:

- A period when you freely embark on a psychological self-improvement program that leads you to abandon weaknesses that have been conditioned in the past and embrace a more authentic and aware personal style. You find renewed strength from the deepest source of your being.
- There are tempting possibilities for personal growth and increased fame and influence, but they must not be at the cost of your principles or better judgment. You are confident that your views are right, or you are attracted to mentors with similar convictions. But you may be wrong.
- You experience setbacks and trials of endurance when trying to achieve your goals - particularly in your dealings with male authorities. By steeling your will to overcome these challenges, you develop the necessary muscle to win through with your agenda.
