Dear Laura,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During your 51st year there are pressing professional issues that have to be addressed. This is a time when challenges pile up, both in connection with your relationship to authorities, and in terms of your goals and ambitions. You need to define exactly where you wish to apply yourself, and exactly what you want to achieve. As you are under pressure now, this is not easy, but with extra effort and determination you can carve out a position for yourself that can stand you in good stead for the next five years at least. Challenges now have a lot to do with dealing with long term issues of dissolution, chaos or suffering in the society in which you live. Wise beyond your years, you are witness to the eternal truth that everything dissolves with time, and this in turn can undermine your will to build things up. The responsibility you feel needs to be channeled into active compassion. These challenges have a lot to do with a latent insecurity that you feel about all those unmapped areas of the soul. You are not wholly sure that the world is a friendly place, and a history of loneliness or isolation paradoxically makes you even more reclusive. You have great karmic battles to fight, and the territory is your own soul, which needs spiritual restructuring. Fortunately, this is also a time when a further expansion of your influence is possible, if you adopt a positive and visionary attitude. Bearing in mind your achievements so far, you are justified in pursuing a confident and self-assured path.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand

on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges lie in creating a future you can believe in. There is a sense of change and potential that brings a new optimism about the future, but you can struggle to find the best moral or intellectual framework for the new beliefs about your life that are taking root now. There is a strong urge to expand your intellectual horizons through study or travel and this is an excellent time to commence a long term commitment to growth, which ultimately brings new skills that will advance your career. This influence started growing around January - 2015 and will ebb out around December - 2017. Issues of conscience can trouble you, and matters of right and wrong can occupy your mind. Basically you are building up a new set of ethical values which will guide your future process.

In this period of your life you are ready to make the transition from learning to doing. Over the last few years you have expanded your horizons both intellectually and through travel, and formed firm new views about your direction in life. You have built up a framework of beliefs and convictions that point you like an arrow to your destiny. The focus now shifts to your career and making a professional impact. This new influence starts growing around December - 2017 and will ebb out around March - 2020. Your immediate experience is one of being seriously challenged - by authorities and by the way the system is put together. If you are to attain career success you are going to have to establish your own authority and carve out your own niche. You need to win respect through a determined approach. Plan your long-term goals and achieve them slowly and steadily, step by step.

Opportunities for Success

Having thoroughly established considerable success in your working environment, you are ready to build up one-to-one relationships through partnership in the period from September - 2016 to October - 2017, expanding your sphere of influence and reaching out socially. Fortunate meetings with cosmopolitan and wise people can bring happiness and a new optimistic view of your potential to make an impact on others.

After a period during which relationships prospered and your circle of social influence expanded, you are ready to delve deeper into the psychological dynamics

of intimate personal relationships in the period from October - 2017 to November - 2018. A deeper understanding of and empathy for others is developed, enriching your emotional and erotic life. You receive blessings both in the form of emotional generosity and material good luck.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 51. Three very important issues that make this year special are:

- You spiral deeper and deeper into a personal crisis because circumstances that have existed for some time, but which you are completely tired of, become more intense and acute. Ultimately you eliminate the past and leap into an unknown, yet empowering, future.
- There are tempting possibilities for personal growth and increased fame and influence, but they must not be at the cost of your principles or better judgment. You are confident that your views are right, or you are attracted to mentors with similar convictions. But you may be wrong.
- You enter an exciting and stimulating period which radically extends your horizons. This can bring long-distance travels and contact with alternative cultures, and it can also bring new intellectual interests of a non-conformist nature.
