Dear patsy,

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

You are in full swing during the course of your 62nd year making changes in your life to accord with your vision of the future. You are not interested in being pigeonholed by the system - on the contrary you feel that you cannot waste this opportunity to pursue interests that are intensely personal and unique to you. For you and your generation there is a willingness to experiment with new forms of self expression and you are inclined to seek unconventional ways to promote yourself. Your particular way of expressing your uniqueness in this respect is through going your own way as far as education is concerned, and in gaining understanding and insight through travel or contact with cultures very different from your own. There is a sense that you have never had quite as much freedom to decide the future as you have now, and you can make the most of it by breaking out of the structures at work and home that prevent you from spreading your wings. This is not a time for building up and consolidating - it is rather a time to experiment with different lifestyles that you can build on later.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your

personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2015 and will ebb out around December - 2017. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

In this period of your life you feel that you have set in motion a new plan for your life. The framework is in place, your intentions have been made clear, and when you examine your feelings, you know you are on the right track. Now you enter a transition phase that requires concrete results. You need to consolidate your position and nurture your resources, so that you can actually achieve the new goals you have set yourself. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In this coming period you will be crucially aware of a shortage of funds, and this is an ideal motivation for increasing your earning power. You need to build the structural framework for future prosperity, and this has to start with economy and restraint. Learning about saving and budgeting are key issues, but it is also important for you not to underestimate your potential worth.

Opportunities for Success

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from October - 2017 to November - 2018 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 62. Three very important issues that make this year special are:

- Both on the romantic and economic front there are obstacles and difficulties. The flow is blocked, and you do not receive the support you want, which initially undermines your self-worth. Keep expectations low and cultivate frugal habits - you are building solid foundations for the future.
- You have the time and the will to mobilize your energy over the long term to produce creative results. This is a great time for physical work, training and building. Good planning and a willing assistant can bring lasting practical results in your life.
- A time that evokes a deep dissatisfaction or confusion about who you are and where you are going. In your search for answers to existential questions you discover new and inspiring paths that have a social, creative or spiritual content.
