**Dear Diane,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

During your 53rd year you are very sensitive to the generational factors of your birth period, and there can be far-reaching changes that bring many opportunities if you are willing to embrace the future and let go of the past. Your visionary capacities now peak, and you are able to transcend your normal life structure and enter new realms of the imagination. There is a kind of global consciousness that pervades your being, and you are extremely sensitive to, and motivated by, the needs and sufferings of others. For you and your generation there is a fascination with sexuality and emotional taboos, and a longing to merge on a very deep level. Personally you express ideals in this connection through your material values which are idealistic, or even unrealistic, and this tends to be reflected by a fluctuation economy. This is also a period that can bring travel to exotic lands or contact with exotic people. You are willing to take a risk to experience something new, and you want to be involved with people who get together with a shared vision. This is a wonderful time to experiment and innovate.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and

communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

### **Opportunities for Success**

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from September - 2016 to October - 2017 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities

during the age of 53. Three very important issues that make this year special are:

- A period when a deep interest in psychological influences in your character is awakened through therapy or other study. People or studies that may have interested you in the past are dropped in favor of a new fascination with secrets and people who have the answers to them.
- A time that sees you getting swept up by a way of euphoria or inspiration in connection with innovation and change. This is a time when you aspire to higher consciousness but tend to do so in a rather extreme way, which can bring sudden dissolution of an established situation.
- Challenges arise which at first powerfully affect your self confidence, as successes are few and far between and recognition and respect lacking. By working on building your character and patiently shouldering responsibility, you establish a position of confidence.
