## THE ESSENTIAL YEAR REPORT...

At the turn of the 21st century, there were 6 billion people on Earth. No two of them were born on the exact date, time and place - everyone has a unique horoscope. This horoscope reflects personal characteristics that the individual has chosen to work with in this life. He or she meets parents, brothers and sisters, friends, teachers and finally partners, who evoke an evolutionary development for the soul.

Each individual has then a unique life that can be mapped astrologically according to the planetary movements after birth. World of Wisdom's Essential Year Report synthesizes three astrological methods to map the life journey of the individual:

- Progressions, which reflect a personal evolutionary, or karmic pattern present at birth
- Transits, which reflect collective trends that evoke specific behavior in the individual
- Solar Returns, which are horoscopes calculated for each birthday, showing what happens to the individual on the year in question. (For unknown birth times and yearly horoscopes starting on days other than your birthday, another astrological technique - horary - is used.)

This synthesis is complex. With 12 signs, 12 houses and 10 planets (with Sun and Moon) there are 1440 simple combinations. When the connection between planets are taken into consideration (aspects) and then transits and progressions, there are several hundred thousand combinations. Essential Year Report works on several thousand of these, the rest needs to be filled in with your memory and creative visualization.

This reading describes your own evolutionary journey. To understand it fully you need to understand the talents and challenges that the planetary positions at birth represent. The first part of every section of Essential Year Report explains therefore what you can expect in life based on who you are as a person. It is crucial to realize that what happens during the course of the life is constrained by these personal factors. If your love-life promises great happiness, then later trends will trigger this potential... and vice versa.

If you wish to know more in detail about your personal character and how to get the most out of your life, then our Birth Horoscope Interpreter will go into this deeply. The Essential Year Report is designed to map out the timing of events and the fulfillment of your destiny.

# INTRODUCTION

Other things being equal, the age of 72 is a time when you can allow yourself to feel satisfaction regarding your life up to now, and appreciation of both yourself and the others who bless your existence. Relationships are important this year. What you value most in love is communication – the ability to exchange ideas. You need your contacts and network. It is through your mental skills that you achieve prosperity. Love and family go hand in hand. You keep love in the dynasty, and express it through your aesthetic imprint on the home. You can experience so much pleasure in the things that you have accumulated and values during the course of your life, and through the beauty around you. Material objects have a limited lifespan, what counts is the pleasure and satisfaction they bring. This is a year to enjoy the things you have and the people you love.

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life there is a transition process taking place as your focus on the community, on friendships and on group responsibilities ebbs away, and you feel a need to spend more time on your own. Professionally you have built up a secure career and associated income, but the magic recipe for success is no longer quite enough. Efforts tend to bring diminishing returns, and professional goals do not seem to satisfy your needs. More time needs to be spent on meditative pursuits and you need to familiarize yourself with the needs of the soul. Achieving personal ambitions is not the answer to life; all things dissolve in time, and the most solid values turn out to be of a spiritual nature. By detaching yourself from the crowd and turning within, you can discover these inner riches.

After a period during which relationships prospered and your circle of social influence expanded, you are ready to delve deeper into the psychological dynamics of intimate personal relationships in the period from October - 2015 to September - 2017. A deeper understanding of and empathy for others is developed, enriching your emotional and erotic life. You receive blessings both in the form of emotional generosity and material good luck.

From most of the period that spans September - 2017 to February - 2018 you have a yearning to expand your intellectual horizons either through study or travel. This is an optimistic period when you ask important questions about the meaning and direction of your life, and gain considerable philosophical insight. You will meet wise mentors who broaden your attitude, and help you define your attitude to moral issues, right and wrong and political or cultural matters.

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 72. Three very important issues that make this year special are:

- A time of major lifestyle transformation when you drop personal bonds and habits that lack meaning and authenticity and replace them with a new lean-and-mean style which makes no compromises. Power battles lead to the unveiling of a new inner, psychological strength.
- A fortuitous culmination of events puts you in the position to increase your influence professionally and gain success and recognition. This is the time to believe in yourself and take a risk or two. Make use of influential contacts at home and abroad to expand.
- You spiral deeper and deeper into a personal crisis because circumstances that have existed for some time, but which you are completely tired of, become more intense and acute. Ultimately you eliminate the past and leap into an unknown, yet empowering, future.

These along with other influences will be examined later in the report.

## Life Path

### TRANSFORMATION OF LIFESTYLE

There are many spheres of human activity which are active at any one time, but each year there will be a focus on a particular area of your life that will absorb you more than anything else, and be at the center of the events of that year.

The theme at the age of 72 is to create a strong sense of identity through self-expression and the projection of your identity onto the world stage. You are willing to take a greater risk to gain recognition and acceptance, and invest more energy and charm in developing and expressing personal charisma. This in turn paves the way for creative breakthroughs or important romantic experiences which bring a celebratory quality to the months ahead.

This theme puts you in contact with powerful emotional forces in your inner life that evoke considerable anxiety and upset. A psychological transformation will arise, as you reject those things that have obsessed you in the past.

Expressing the essence of yourself and projecting your personality with warmth and charisma is high on the agenda in the year ahead.

You make choices at this time based on instincts and emotions. Guided by gut feeling you embark on projects that nurture those close to your heart, building up supportive structures for intimacy and growth. Home and family figure strongly in your calculations, and developments in this area bring stronger bonding and emotional growth.

You will find that the focus of this influence is very much in your inner life, and many of your achievements take place in the private sphere, in isolation from all the other practical aspects of your existence. A time spent in a meditative environment helps many spiritual issues fall into place, especially as this is a time when it is difficult to make a big impact in the outer world.

You are empowered by the following.

You work furiously and competitively to get ahead with your agenda, but tend to run into opposition through being too forceful or impatient. You may employ someone who fights some of the battles for you, and as a team you conquer the territory ahead of you.

This stirs up your inner life, which is an area where you tend to be over-imaginative this year.

Certain challenges arise.

There is a destructive tinge to what you do, as if you are prepared to lose everything, and what does it matter? This uncompromising attitude needs to be transformed by psychological insight. You may have to

cut your losses and start again.

This specifically activates a need to transform your working life, clearing up issues with colleagues that may have been psychologically oppressive.

There is a sense that you are being judged by those who know better, or perhaps you yourself insist on being right, without listening to advice. Be open to the views of others; think carefully about your future perspectives. Conviction is not enough.

This will be expressed in your domestic life, through meaningful events in the home and family, which expand your influence.

Some factors help.

You allow yourself to be guided by your ideals, and to some extent you reach out unselfishly to others who you can help along the way. A constant process of creative refinement enhances everything you do, but stay realistic.

This activates a need to refine your views and opinions, and tune in to higher forces that give meaning to you spiritually.

There are unique opportunities and challenges affecting you personally right now, which can result in significant lifestyle and relationship changes or modifications. If you would like to see your life going in a different direction, now is the time to take the reins and choose a path which is uniquely suited to you, as described by the influences below.

### **Lifestyle transformation**

This is a major period of transformation in the way you live your life, the personal choices you make and the way you present yourself generally. The time for compromise has gone; you cast off the old clothes and the old style and immerse yourself in an experiment in authenticity. You uncompromisingly drop an old lifestyle in favor of a new, and this can affect a lot in your life – work, relationships, values and taste. This is part of a psychological transformation process which can see you making radical choices to get down to the bare bones of the meaning and direction in your life. If your birth time is correct this process spans the period from January 2016 to December 2019 and brings a new intensity especially emotionally and erotically. There can be major power battles. It can feel as if you are caught up in something beyond your control. The end result however, is that you feel empowered and strong after dropping elements of your lifestyle that no longer feel genuine or meaningful.

### **Personal and relationship boost**

Generally speaking this is a period of expansion and good fortune for both relationships and your personal life. You are infused by optimism, and this is born out by favorable partnership developments. This is especially apparent in the period from November 2017 to November 2018 when things flow smoothly in many areas of your life. Now is the time to go into the world with confidence; you can expect the support of influential people and mentors, and you will find that your own grasp and understanding of events reflects your innate wisdom. Travel is favored and brings you together with people who are good for you. Partners can be encountered abroad or when studying, and they too may be in an expansive phase of their life.

### **Opportunities with a price**

Matters come up in your personal life right now, which challenge you to take a stance connected with what you consider to be right and acceptable, and what you consider to be wrong and unacceptable. This is particularly strong in the period from October 2016 to October 2017. This can be an exciting and exhilarating time, and you will certainly learn a lot and gain wisdom, but there are moral issues that affect you and your relationships, and your judgment may not always be right. Your appetite for life is strong, and you convince yourself that life must be lived to the full. You are likely to travel more or meet cosmopolitan people who have considerable influence on your thinking.

This initial section of the report is connected with your lifestyle and direction, and the factors described above modify this direction as you respond to outside influences and your own inner evolutionary process. Of these factors the most significant during the age of 72 are:

- a time of great personal transformation when you live your life with a new intensity, deeper psychological insight and erotic intensity.
- fortunate developments that widen your horizons and enhance partnership. An excellent time for travel and study.
- This is an exhilarating time when opportunities for personal growth and meetings with influential people bring a tendency to be over-optimistic or to overreach yourself.
- a time of creative expression and extrovert behavior, when you project your identity onto the stage and make an impression.

## Career

### EXPANSION OF INFLUENCE AT WORK AND AT HOME

Every year there is a particular focus on your goals and ambitions, and a need to reformulate your mission in life and what you want to achieve. It is equally important to have a good foundation to build your successes on in terms of home and family.

For several decades your main career priority has been to reach the top and wield authority in society, shouldering heavy responsibilities and working very hard. Yet recent years have shown this to be a strategy that has outlived its time; you feel the need to remove the yoke of ambition and to integrate yourself more democratically with the group. Personal goals lose their allure, and you feel a growing interest in a higher social mission. Moreover, the old hierarchical way of doing things loses its appeal... now you are willing to experiment with unconventional methods with other people on an equal basis.

A major theme as regards career during the age of 72 is the pursuit of dynamic new initiatives where you mobilize your independence and leadership abilities. It is likely that there are battles to fight, and that the competition is fierce, but that is what can make this year exciting and interesting. Professionally this period is less about cooperation and more about winning.

This theme is very much connected to your communication abilities and your networking skills. This is a time to make the very best use of the knowledge you have gained and your ability to sell your ideas.

You feel energized and competitive and will channel your drive in a specific fashion and in a specific area.

A high professional priority is to create a safe and secure environment in the company of loyal colleagues, and you are easily upset if the atmosphere is not supportive. Contact with the public and the nourishment of others play an important role.

You tend to focus your attention on the issues that undermine you rather than those that strengthen you, perhaps because your heart is not in what you do. If you can get involved professionally in areas where your ideals or creativity come into play, or help people less fortunate than yourself, you would find more satisfaction.

You are empowered by the following.

Your highest priority is to make an impact amongst your peers, and you devote yourself wholeheartedly to this enterprise. Well-known personalities lend their influence, and guarantee you will be noticed. You carry the attention well and attract a following. Success.

The essential expression of this will be through an unselfish desire to devote your services to a higher cause.

Certain challenges arise.

One of the major challenges is the readjustment necessary in a climate that is strongly affected by restructuring, which can mean that old friends, partners and colleagues disappear and new ones arrive. There is a likelihood that you encounter people with who there is a tense psychological relationship – it's like meeting your shadow side. Worn-out methods must be eliminated.

One factor that can undermine success right now is a strong element of unpredictability and restlessness than can bring job change or relocation. You are determined to do things your way and put yourself at odds with the establishment, which may simply end with you being out of play and on your own. You may want independence but avoid provoking the powers that be.

This is connected with the pursuit of your unique individual ambitions, and exciting changes in your career.

Some factors help.

One very positive factor that helps you achieve your professional agenda is you ability to draw upon healing powers that you have developed through dealing with personal issues. You receive help from people on the fringe who have unique talents themselves when it comes to repairing damage.

This can be connected to a painful intellectual or spiritual realization, or initiations from a flawed mentor.

Challenges and opportunities arise at this time which can bring major changes or adjustments in both your career and your domestic life. The influences described below can bring concrete change, enabling you to live and work on a new level.

### **Peak of success**

A twelve year cycle starts around the period from December 2017 to November 2018 – assuming your birth time is reasonably correct – when a career expansion process starts. Your life experience pays off and earns you well-deserved recognition. When you mobilize your hope and belief in yourself it seems that the sky is the limit. Not only can you experience professional good fortune as a stroke of luck, it is also likely that people in power will intervene on your behalf to help boost your chances even more. Success comes through international ventures, intellectual and publicity initiatives and calculated risk-taking. High-flyers can fall, however, if they do not grasp opportunities at the right time, so make hay whilst the sun shines.

Sometimes a time comes when you can actually make a decisive move that defines your unique career potential and the hopes you have for your family. The influences described below show challenges and opportunities that arise now which can bring concrete changes in the framework of your professional life and domestic environment.

### **A healing mission**

If your birth time is accurate, the period around September 2017 brings a unique opportunity to come to terms with issues in your career and family life that have pained you in the past. You evolve to utilize skills that you have developed to deal with shame, pain and isolation, and you discover ways to channel these skills into the healing of others. The smallest things can have an effect quite disproportionate to their size. By transcending personal issues and focusing on helping others, you can have an enormous beneficial effect. Opportunities arise on a both a spiritual and a technological level to enhance performance now. These developments can be part of a healing process both professionally and personally that also resonates with events around May 2028 enabling you to channel skills, which you once developed in isolation, for the greater good

This opens an old wound in connection with sharing and with your intimate life, for example psychologically or erotically.

The career section of this report explains influences in the current year that can cause you to adapt or change professional goals, and make use of opportunities that come your way. Overall, in the area of family and career the major developments you can expect are:

- crowning achievements in your career bring an expansion of influence, and a new expansion phase starts.
- a time when you can channel and transform what once was pain or shame into creative skills for the healing of others.
- a time when your competitive spirit is stimulated by career challenges, leading to dynamic new initiatives.

## Personal development

### INNER STRENGTH THROUGH CRISIS AND TRANSFORMATION

During the course of the year you will have a number of character-building experiences, which help you grow and develop as an individual. It is rare for any difficulty to last longer than a period of about eight months, and if you regard challenges that arise as a test that helps you become stronger, then it will be relatively easy for you to overcome them. Similarly, when events boost your confidence, it is pays to take advantage of the limited time available to capitalize on your good fortune.

With your sun in your birth chart in Cancer and in the 7th House this relates to your need to feel a sense of belonging and make emotional bonds, in connection with dealing with relating generally and dealing with others on a one-to-one basis.

An important feature around the age of 72 is the need to withdraw into an inner world and commune with the spiritual side of your nature. In this way you gain insight into eternal values, and understand the bond that you share with other human beings. At times this can bring loneliness and unhappiness, but is also draws out your compassionate feelings. You may want to sacrifice your needs to benefit others at this time. You can however be led astray by your fantasies and thereby inadvertently undermine your position.

You are empowered by the following.

This is a time when you are consumed by energy and enthusiasm and ready to rush in with guns blazing to achieve your aims. You may work closely with an executive troubleshooter and strive to achieve goals in tandem. You have the power to mow down the opposition, but you are burning the candle at both ends, and this can easily lead to meltdown. You are prepared to take great risks and fight great battles. You have the courage to win, but can invite more trouble than you can handle.

Certain challenges arise.

You are in a period when major transformations of your personal character are on the agenda. You cast off falseness, throw away the mask, and assert yourself uncompromisingly. Your desire to be totally authentic can also lead you to be ruthless - for you, being true to your inner nature is non-negotiable. People can take it or leave it. The tunnel is long, and dark... but light starts to emerge at the end of it.

It is during this period that you that you have the opportunity for insight and expansion, but you do tend to set yourself up against those who act as if they know better than you. You do not want to be in the wrong, and you cannot accept injustice. But you may respond by acting in a haughty or superior manner and end up manifesting the very behavior that irritates you in others.

Some factors help.

It is during this period that you feel a deep longing for transcendence, where you can develop your dreams and ideals and lose yourself in something greater. This brings spiritual experiences and creative growth, a greater interest in music and the arts, and a desire to immerse yourself in the ineffable. There has to be a sense of meaning in your life, and you will not be satisfied until you find it.

Certain key influences will present challenges and opportunities to you now as regards your development as an individual. Below you will find effects described, which you will feel more or less powerfully, evoking actions that enable you to stamp your signature on events.

### **Identity crisis**

You have reached an evolutionary moment which demands that you cast off the husk of your old identity and embrace a new. There are many things in your life that you are tired of to the point of exhaustion. You would like to change them, but no alternatives seem to be offered. You have so many emotions invested in a past that you dare not let go of, that it seems impossible to envisage a new future. It can seem like you are in a tunnel, and that there is no light at the end. This crisis and transformation spans the period from January 2016 to December 2019 and at the end of this time there will be light, you will have dropped all those things you are fed up with, and you will even be happy that you went through the process. On an outer level there is the likelihood of power battles and encounters with autocratic individuals, whilst on an inner level you are in the midst of an existential crisis that has you questioning who you are and what it is all about. Hero figures crash to the ground and you are compelled to delve deep into your inner core to find your own essential identity. This turns out to be an extremely empowering process.

### **Insight brings influence and success**

It is at this time that your insight and understanding peak to bring a sense of meaningfulness and personal satisfaction in life. Travel and intellectual development stimulate your confidence in your self and your abilities, and this has a snowball effect in creating success. You have the good fortune to meet wise people, or mentors, who can guide you into new areas of knowledge and understanding. This is the time to capitalize on your assets – a calculated expansion now will surely bring good results, especially in the period from November 2017 to November 2018. Your optimism is infectious in this period, and people seek you out to enjoy both your humor and your insights. Spiritual interests are also favored as a deeper understanding of the meaning and direction of your life dawns.

### **Overreaching yourself**

The period from October 2016 to October 2017 is a time when you encounter intellectual authorities who are in a position to make judgments on your character, and if you over-estimate your strength or capability, this judgment can go against you. On the one hand you expand your influence, either through intellectual achievement or travel, but on the other, there is a tendency to go over the top. The essential thing is to guard against hubris. There is no harm in thinking positive and being intellectually competitive, but without groundwork you will be unable to hold on to the success you are hoping for. You are attracted to mentors, but you may later feel that you misjudged people. Watch out for inflated egos.

Quite apart from the specific changes that come at the age of 72, you now reach a stage in the process of your personal evolution that enables you to integrate certain character traits that stand you in good stead for the future.

During the course of the year after this one there is an important influence which you are very likely to feel already during the course of this year. Perhaps nothing happens right now, but you will sense the following theme developing, even if it is early days:

### **Becoming a healer**

The period around August 2018 is a time when you develop a profound knowledge of your deepest

wounds and understand that they can be your greatest strengths. Sometimes there is gold to be found where the ugliness is greatest. Sometimes pain is a catalyst for enlightenment and insight. At this time you can meet teachers who teach you unique skills that you could not have developed without a history of pain, but at the same time you also need to be able to abstract from circumstances that only make pain worse. You are able now to develop skills in healing, which are of benefit to both yourself and others, and perhaps you can adopt a leadership role, giving voice to things that others cannot give voice to. This process can be part of a longer period of healing and catharsis connected with events around March 2029 and resulting in a nuanced and compassionate new identity.

The personal development section of this report shows influences directly affecting your character, bringing both challenges and personal growth. Of these influences the most crucial are:

- a time when you go through an intense psychological process which changes for ever the image you have of yourself.
- a time when insight into your identity brings influence and success. Mentors help you expand your understanding and travel widens your horizons.
- a tendency to overrate yourself and fly, Icarus-like, too close to the sun.
- a time when you dive deep into your history of pain and discover unique skills and healing talents as a result.

## Feelings and security

### EXPANSION OF EMOTIONAL INSIGHT

You are in an ongoing process of emotional development, and the focus is constantly changing. As your unconscious mind absorbs impressions during the different phases of your life, you integrate greater depth and understanding of yourself and your relationships. There are specific areas of your life where this influence has a particular significance.

With your moon in your birth chart in Leo and in the 7th House this relates to your need to express your feelings warmly and be loved, and relationships will be the major playground for your feelings, as you attune strongly to the moods of others.

Emotionally the age of 72 can be said to reflect a time when you want to meet people and involve yourself in untraditional groups who bring a breath of fresh air into your life. You are drawn to foreign and exotic environments, and to people who live on the fringe in some way. You no longer want your life to be so predictable, and you may even go out of your way to be provocative.

One of the main areas where this influence will be felt is in relationships. Building harmony between yourself and a partner has highest priority now, although there are many ups and downs on the roller coaster of love. Realizing and accepting your dependence on another is a part of the emotional learning process now.

One thing that you are uncomfortably aware of now is that your emotional needs run counter to certain educational or communication requirements, and general need to maintain a network of contacts through travel and mail. Concern for security and other attachments dissipate energy you would otherwise use on mental interests.

Certain challenges arise.

There is an element of discord at this time between your emotional life and your need to reach out to others through travel, learning and communication. Family demands can lead you to make all sorts of excuses as you try to harmonize one need with the other.

You express your thoughts with enthusiasm during the course of the year and it feels crucial to get your ideas across.

Some factors help.

A spirit of optimism at this time brings you the confidence and faith to expand your emotional base and capture the loyalty of those who are dependent on you. This is good for expanding family horizons, for children and for travel. You have a gut feeling that everything will work out fine.

Your loving and maternal sides are evoked in a very positive way at this time. You find a natural ability to care for those who are dear to you, and you create an atmosphere of security. An excellent period for love and relationships, and for expressing your affections.

Relationships with friends and important during the course of the year, and love can be found in your social circle. Romance is blended with principles of equality.

The year ahead brings an important transition in your emotional life as you no longer wish to be swept away by sorrows and escapism. You feel a growing and dynamic need to break out of passivity and victimhood and take new initiatives that signal unconditionally that you are in control of your life. This change happens in August 2017. The last couple of years have evoked the whole emotional spectrum in you, and as a result you have become a well-rounded and compassionate individual. But now you want action and you want results, and there is a new impatience and restlessness that can make you quite short-tempered and combative at times, though it is all part of a process of increased autonomy.

A great deal of your emotional energy – in practical terms at least – is focused on that area of your life that is to do with building up a secure framework conducive to a happy family. Money and possessions are the central ingredients in creating this security and when they are in abundance they afford you great satisfaction and strengthen your self-worth, not least because you can really become a provider for those who are dependant on you. Whilst material concerns can bring considerable satisfaction, there is also a strong focus on the body, on food, on sex and others areas that bring an appreciation of Planet Earth.

As you grow and mature emotionally, the focus shifts from one area of life to another, and you instinctively absorb the lessons connected with the many different emotional facets of your life.

- Around August 2017 an old wound reopens and you become aware of something which has been a source of pain for you for a long time. It seems there is very little you can do about this; a philosophical attitude is best when there are circumstances that are very difficult to change. It is a good time to visit a healer or learn the healing arts yourself.

- Around November 2017 there is a sense that you lack direction and certainty, and strong moods tend to undermine you. Perhaps there is a longing for something or an indefinable sense of sorrow, and this in turn evokes escapist tendencies of one form or another. You may search for a reason for this moodiness, but it is elusive and may just be connected to a general sensitivity to and identification with the suffering that is a part of the human condition. This is an excellent time for spiritual practice.

The initial confusion and subsequent clarity you experience in this connection are related to intimacy and sharing both in your sexual and economic life.

- Around December 2017 there are some very pleasant developments in your love life and you can expect a harmonious period with your family. Perhaps this is because you know how to listen and empathize, and this brings out kindness and devotion in others. If you are looking for love, then the gods are on your side; this is a time to enjoy the good things that life has to offer.

A beautiful home and loving family are crucial for you, and partners at this time will affect your sense of well-being in this area. Your family plays a role in arranging meetings with partners.

- Around March 2018 you are confronted with a dilemma concerning your attachments on a collective scale. Perhaps at this time you make a bond to a new group, which also means eliminating emotional connections to people who cannot be part of your future. This is very much a crossroads for you – a time when habitual choices are evaluated and replaced by choices that reflect new values.

This activates a major life theme for you, which is the dilemma of letting go of the tendency to isolate

yourself, and getting your hands dirty working with others.

- Around April 2018 deep emotions are stirred bringing a strong awareness of psychological issues that have had a tendency to undermine you at times. Latent anxiety can be successfully dealt with via therapy at this time, or you can get to the root of other problems through your own efforts. Seize this opportunity to clear out the detritus from the past, freeing up space on the outside and the inside to become a more authentic human being.

The overall effect of this influence activates your inherent tendency to get involved in psychological power battles with partners, which probably stems from a fear that other people have too much control of your life.

- Around July 2018 there are fortuitous contacts that stimulate you tremendously. You meet people of like mind on your travels, and the resultant exchange of ideas boosts the flow of ideas. You just have to communicate what you learn, and this information is valuable for your work, especially as regards education and networking. You are probably on the move at this time.

Your ideas and thoughts are centered on partnerships and relating skills. The mental evolution process you are now going through will bring new partnership developments and ultimately improve communication skills in this area.

The influences described below will have an even more profound effect on your emotional life, awakening a powerful and often unconscious response. Ultimately this brings insight into your early conditioning and enables you to modify the way you instinctively react.

### **Over-emotional times**

You can expect an expansion in your home and family life in the period from November 2017 to October 2018 which can arise from home improvements or moving, or from new people in the local or international environment, or simply from a new period of emotional growth that requires considerable adjustment. Things can get a bit much, or you can bite off more than you can chew, and this in turn results in emotional states that tend to affect your judgment. To avoid misjudgment in this period, especially through over expansion, it is important to understand that feelings come and go, and they should not alone form the basis of actions. You can get particularly worked up about injustice, and there may be one issue in particular that you find especially unfair. But perhaps you have just outgrown a situation that would have restricted you anyway. It is time to move on and grow.

### **Expansion of comfort zone**

A period of expansion in your personal life takes place from October 2016 to September 2017 which brings a general sense of well-being, partly based on a deeper understanding of the unconscious factors that motivate your actions. Your comfort zone expands – you are more comfortable with yourself, and more comfortable with your role in a family that is likely to be extended considerably. If you wish enlarge your home, move, or invest in property, good fortune tends to come your way without too much effort. Parents in particular can be very supportive, as will your environment in general. You have the confidence and faith to give empathy and support to those in need, and can show those people who are attached to you just how to enjoy life and have a good time.

This section maps out the timing and intensity of influences in your life that absorb your interest on a daily level, profoundly affecting everything, from your work to your family life. These influences constitute your emotional growth during the course of the year, and the main themes are:

- a time when your emotional state tends to dominate proceedings as expansion and change bring a need to grow out of restrictive habits and circumstances.

- a time when you experience a boost in confidence and happy developments at home and in your family life.
- a time when you shake off apathy and victimhood and take radical new initiatives to assert yourself and stake out your direction.
- a time when you are appreciative of the riches of the earth and strive to consolidate your own economy and family security.

## Mental Development

### BOOST OF SKILLS AND EXPANSION OF MENTAL INFLUENCE

Gaining skills through education and other forms of training is a major ingredient for success, both professionally and in relationships. Through developing your communication talents you can make contacts and build networks which facilitate progress.

With Mercury in your birth chart in Leo and in the 7th House this relates to your need to express yourself creatively and with style, and you evoke similar qualities in your relationships, where communication is your highest priority.

During the age of 72 your mental focus is on creative self-expression. This is the time to take center stage and enlighten and entertain others with your inventive abilities. Thoughts dwell on children and love – these are areas you celebrate in word and deed.

Your mental abilities are an important component of your whole personal style during the course of the year. Learning and communication have the highest priorities and will come to define you and your lifestyle. Networking, teaching and education, or business and travel will feature strongly in the year ahead.

An innate forcefulness and intensity makes its presence felt, and you pursue ideas with dogged fanaticism. You learn to use the mind as a therapeutic and investigative tool, and discover secrets long suppressed.

Some factors help.

You are able to express yourself with unusual harmony and grace during the course of the year and are more attuned to aesthetic values. This brings good results in all social and educational matters, partly because your diplomatic abilities and good taste come to the fore. It is an excellent time for dealings with women, particularly sisters.

The influences described below will bring additional opportunities and challenges in the field of communication. By rising to educational challenges and improving communication skills, you can add to your skills and capabilities.

### Details and overview

It is an extremely active period for you mentally in the period from October 2017 to October 2018. This is a time when you can travel or embark on an educational project, and perhaps have several schemes going at the same time. You may get involved with something for which you do not have all the necessary skills.

There is plenty of confidence, but your judgment may be off, or you may not receive very good advice. You can get into conflict with people who have quite different opinions than you – they may be right, or they may be wrong, but perhaps it is best not to dissipate your energy on trivial discussion. Likewise it will only distract you to get involved with gossip and pointless speculation about what may or may not have been unjust or unfair in the past.

Your mental evolution is a product of the people you encounter during your life, who evoke certain qualities in you, as well as your contact with institutions of learning and educational media. The lessons you learn give depth and breadth to your personal message to the world. This year new opportunities arise.

Last year the following influence peaked, but it still has a very important effect at the age of 72. You are still digesting the changes in this area, and beginning to integrate them in your life.

#### A lighter lifestyle

If your birth time is accurate, around February 2017 you experience a time of mental growth and stimulation that arises from contacts with interesting people or through enhanced interest in study. This is a great time for adding new skills to your repertoire, and for being in the company of people who evoke these skills. There can be much more travel now, and more pleasure in travel. Brothers or sisters, good friend or fellow students bring out a youthful approach and enliven your mind. All relationships are favored now – to family, children and loved ones – but the relationships are characterized by friendliness and conversation, rather than having a deep emotional content.

Last year the following influence peaked, but it still has a very important effect at the age of 72. You are still digesting the changes in this area, and beginning to integrate them in your life.

#### Mind and soul

Around April 2017 is a time when you discover the natural skill of presenting yourself and what you stand for. You can now harness your gifts and communication skills to sell yourself and get your individual message across. In this way your natural charisma comes to the surface and you gain influence through your ideas. You will probably meet someone in this process who you either look up to, or who looks up to you, and in tandem you make an extremely good team, whether it be in business, relationships or family life. There is a joy in creativity and in self-expression, and this drives you to learn more, talk more, travel more and meet more people. You realize that to improve your position in life, you need to have the necessary skills.

Going to great lengths to be something for others is central to your personality, and this influence will bring key relationship developments.

During the course of the year after this one there is an important influence which you are very likely to feel already during the course of this year. Perhaps nothing happens right now, but you will sense the following theme developing, even if it is early days:

#### Discovering the power of the mind

A period of great mental activity ensues around October 2018. This is a time of both physical and mental exertion, when you learn to make rapid decisions. You learn many new things, and you learn them fast. Your ability to express yourself clearly is enhanced, and you cut to the quick in getting your message across. You say what has to be said frankly and bravely. Coordination improves and you are ready to take risks to get ahead. Transport matters become important. You need to get from place to place, and you are in a hurry. Basically you can expect a reasonable degree of good fortune in all your travel arrangements. Better modes of transport are discovered, and there is more efficiency and speed in getting around. This can be a sexually active period – you are more interested in being effective than moralistic, and you know

just what to say to get what you want. This new-found energy translates itself into action across the whole spectrum, and many journeys will be made, and intellectual challenges welcomed. The desire to be clever and the desire to win are paramount.

As you are extremely dynamic mentally and are willing to fight to get your message across, this influence, while invoking an argumentative and combative side of your nature, will bring much mental development.

During the course of the year after this one there is an important influence which you are very likely to feel already during the course of this year. Perhaps nothing happens right now, but you will sense the following theme developing, even if it is early days:

#### The outreach of the mind

The period around November 2018 is a time of tremendous expansion in all areas of your life, not least culturally and intellectually. It is highly likely that you will participate in a course of development or meet a wise mentor. Travels widen your cultural horizons; studies are embarked on with great success. It is excellent for residence abroad and learning new languages. Furthermore this is an auspicious time for meeting a partner who evokes in you your latent wisdom and intelligence. It dawns on you just how much power and potential there is in your mind if you focus on future visions and think positively. It is at this time that you develop a keen discrimination of moral values and fight for what you believe is right. Doubts are banished and you gain a certainty about what is the most beneficial direction for you to go in. This can be part of a mental development process that has its parallel around August 2027

This activates your inborn curiosity to delve deep into psychological material and gain insight into the unconscious - both in yourself and in intimate relationships.

The influences described in this section challenge you to develop intellectually, socially and in relation to others. Of all these influences, in terms of the enhancement and development of your mental skills the most significant will be:

- a tendency to take too much on or to waste time on trivial discussions or journeys. Avoid juggling too many balls in the air.
- a time of meetings and travel, studies and a light-hearted approach to life.
- development of your ability to think creatively and entertain and inspire others with your ideas.

## Values, Love and Relationships

Your need for relationship is very much dependant on your tastes, and early family experiences of bonding. These factors determine whether you feel attraction or not, or whether you are simply indifferent. People of similar tastes are instinctively attracted to you, as you are to them, and this is the basis of personal harmony in your relationships.

With Venus in your birth chart in Gemini and in the 4th House this relates to your need to have a mentally stimulating love-life , which you will express in your home and family life, and in creating a harmonious domestic environment.

In relationship matters there may be a dilemma of choice during the age of 72. There are a number of options for you in matters of the heart, and you certainly have the talent and ability to reach out to a varied assortment of people. This is a year to cultivate the art of conversation and communication. Mastery of the spoken and written word, and the ability to express yourself with style, help you make contact between heart and mind.

You will find that the focus of relationships is greatly apparent in your interaction with groups, friends and associations, where your role is to create harmony and balance. Friends you make during the course of the year will be a blessing to your life, as you will to theirs. A friendship may make a slow transition into a romantic bond. Partner's children can bring a blessing into your life.

There are no limits to your creative and romantic fantasies at this time. You discover a deep well of love in yourself, and this can give a great boost to creativity or compassionate ventures. However your judgment in relationships is unrealistic, and though romantic dreams seem to be fulfilled, in the end love will not live up to your expectations.

The influences described in this section will all have a significant effect on the way you relate to the world. In terms of your material values and matters of love, the most important of all these influences will be:

- choices in relationship and the development of refined modes of expression.

## Sex, work, willpower and assertion

### GOING FOR VICTORY

Nothing is achieved in life without the force and determination to go for what you want. There are battles to be won and obstacles to be overcome, and this means being able to assert yourself, and to mobilize your courage to face challenges and overcome resistance.

With Mars in your birth chart in Taurus and in the 3rd House this relates to your calm determination, stubborn will and strong desire nature, and you express your fighting spirit verbally and in intellectual competition.

As regards personal drive the age of 72 is a year when you are stirred by powerful emotions within connected with home and family. You are fiercely protective, but emotions tend to boil over and create domestic upsets. You fight for what is dear on a very instinctual level.

Your energy and will is channeled into private areas of the imagination and your spiritual life. Fantasies can however disturb your equilibrium. There is a sense of being imprisoned and helplessness in the face of inner demons.

This is a year when an irrepressible determination and drive inspires you to take up the flag and charge. You assert leadership qualities but come into conflict with authority through impetuosity. Working with a trusty lieutenant is a good idea.

Certain challenges arise.

You have to deal with power battles and psychological warfare, which can deplete your strength and challenge your will. You can show weakness when dealing with issues at a therapist, but don't in relation to the outer world. There are factors in relationships you cannot control – avoid obsessing.

Impulsive behavior leads to immediate change that can reorientate the way you work. You are restless and unwilling to take any orders. Your unconscious agenda may be to get fired. What would inspire you is to be as free as possible and to work with exciting people in exciting environments.

Some factors help.

Knowing where you have been wounded in the past, you use the skills you have painstakingly acquired to help and heal both yourself and others. This is a time to educate others in the art of self help and defense.

There are other powerful influences at this time, which bring both challenges to your autonomy and independence, and opportunities for leadership and self assertion. The influences described below bring out your survival abilities and evoke a fighting spirit that can ultimately empower you.

## Bulldozing the opposition

Nothing can stop you getting what you want in the period from December 2017 to November 2018, as you have the confidence to go for it, and you are willing to take risks. This gung-ho attitude can attract considerable disapproval from people who know better, and you can waste energy discussing with or fighting people who have different views than your own. If you can channel your energy constructively, you can expand your sphere of influence and intellectual capacity, but your appetites are so strong that you are inclined to make misjudgments. You may want to develop your body through fitness and sport – it is at least a great channel for your growing energy. Your sexual appetite is also strong at this time, and you can bend the rules to satisfy your desires. There is an attraction to foreigners, adventurers and intellectuals.

Quite apart from the specific changes that come at the age of 72, you now reach a stage in the process of your evolution in terms of your work and drives that enables you to discover new forms of empowerment and to harness your energy in new ways.

During the course of the year after this one there is an important influence which you are very likely to feel already during the course of this year. Perhaps nothing happens right now, but you will sense the following theme developing, even if it is early days:

### Collective battles

In this long phase that culminates around September 2018 you connect with your desire nature, your power and your strength, and with men or male-dominated groups who evoke this side of you. It is a time of battle or struggle which is somehow related to how you interact with the collective. [male] You tune into your essential mission as a man, and live out the drive for power, conquest and sexual experience [end]. . If you feel constant stress and have more than your fair share of struggles now it is partially connected with developing your martial skills and survival abilities. Circumstances demand that you fight. It can also be at this time that a collective fate has the effect of drawing you into a struggle, or that a significant man either appears or disappears from your life. Having to constantly use force can go to your head and take over your thoughts – non-violent ideas are the way to peace of mind. This can be part of some years of development also connected with events around .

The influences described in this section will bring changes in the way you strive for achievement. Of the many influences affecting your energy, sexuality and assertiveness this year the main areas to be aware of are:

- a time when you are unstoppable, but at the same time you tend to be impervious to how other people feel when you go for what you want.
- a time when you learn of the necessity to do battle because of developments in the collective environment. A man comes, or goes.
- a time of fierce protectiveness towards the family and considerable oversensitivity.

## Collective trends

### COSMOS AND THE INDIVIDUAL

The influences mentioned so far in this analysis have an effect on your psychological evolution and fate which is strictly personal. There are other influences on your life based on your relationship to the collective, which can be just as exciting and stimulating for you, even though they may not evoke dramatic personal change.

#### **Dream of liberation**

In this period you can tune in to unique talents that can differentiate you from the crowd. This is a time when you are inspired by a vision of something greater and can be swept up in a mass movement, or work with knowledge or media skills that can affect the mass. You can also be led astray, because the laws of the crowd are not necessarily to your benefit, and ideas that take hold of collective consciousness are not necessarily helpful. But you are inspired by a vision of change and higher consciousness, and if you channel this inspiration well, you make your mark. This period of revolutionary imagination is due to an influence that lasts March 2017 to December 2020, and it is a time when you answer to no authority but the inner voice that guides you. And that voice calls for liberation.

#### **Retuning your ambitions**

In this period you feel a growing need to subtly change the structure of your life, especially professionally, so that it is not made up of meaningless routine or ambitions and goals that have outlived their usefulness. You sense the passage of time and would like to work with something that has significance for you in the long-term. New initiatives may not bring the desired results very fast, but the old path is not very satisfying either. This is the time to integrate social, creative or spiritual goals into the fabric of your life. People may question whether you are living up to your responsibilities, but you know that you have a long-term responsibility to live a meaningful life, and this can sometimes involve feeling your way through the mists. This period, which stems from a trend that lasts May 2016 to February 2020, will ultimately lead to a satisfying use of your time, even though you may feel disoriented initially.

#### **Working on confusion**

If you have unrealistic hopes and dreams in the period March 2017 to December 2018 life will remind you that the imagination alone is not enough to create realities. If you find that professional or family structures are dissolving or difficult to shore up, then this can be because there is an escapist element in what you have in mind. It can also be that there are larger forces at play that no amount of hard work and

determination can deflect. A castle built of sand must be abandoned when the sea comes in. Now is the time to accept reality rather than fight it, and this can mean an element of surrender or at least a tactical retreat. There are opportunities for spiritual growth through disciplined practice and through helping others less fortunate than you. Social work, especially connected with people who are old or abandoned, can do wonders for your soul. Move the focus from your own suffering to the universal suffering of others.

During the age of 72 you are in a phase of your personal evolution during which there is a stronger awareness of your duty to others, and you may be called on to help them in some way. This is the time to learn the basic rules about relating to others - knowing what you have to offer as an individual, but also being receptive to what others can offer you. By toning down your personal ego and working with others to get results, you are putting the finishing touches to an evolutionary process that will enable you to give the best of yourself in your relationships, which is where the challenges of coming years will lie. This is the time to learn how to apply your creative talents practically in the world - to carve out your own workplace in society. This can therefore be a productive period with fruitful cooperation with others.

Seen from another viewpoint, there is a purposeful evolution in your life, and each of the events that arise can be seen as milestones on the journey of your soul. There are some fields of your experience which you are all too familiar with, and perhaps you need to relinquish your attachment to them. Other areas of experience present new and interesting challenges for you soul, and require total immersion.

The primary evolutionary focus in the year is connected with coming out of a sense of isolation and getting more involved in the working functions of society. Integrating with the work force brings up the spirit of service, and this can bring a lot of meaning in a world that sometimes can feel very lonely. What works at this time is to organize your life and create daily rhythms, which exercise your body, mind and soul.

The collective influences described above are very much related to the generation of which you are a part, and opportunities now arise to capitalize on trends that your generation will resonate to. The most important of these are:

- a time when you are swept along by an urge for liberation, spiritually and physically. Mass movements sway and inspire you; the New Age calls.
- a time when old structures in life dissolve as you search for a more meaningful way to spend your time, both professionally and as far as family responsibilities are concerned.
- a time when realities force you to give up unrealistic dreams. Replace illusory structures in your life with a framework that can stand the test of time.

The influences described in this report are based on planetary cycles, transits of the outer planets and progressions of the inner planets in an integrated description which also takes into account the major factors in your birth horoscope. Thousands of factors are taken into consideration, making this report completely unique to you for the next twelve months. Rather than make specific predictions, we have tried to describe how you can make the most out of the many changes that are taking place. By defining what you really want, and going for it, you can weather the storms and currents described in this report and come safely to the destination that you are aiming for. It is in this context that the major events of this year should be seen.

Some of the themes from this year will continue into the next year, and some completely new themes will arise. Looking at the three most important events at the age of 73 you can expect change in the following areas:

You spiral deeper and deeper into a personal crisis because circumstances that have existed for some time, but which you are completely tired of, become more intense and acute. Ultimately you eliminate the past and leap into an unknown, yet empowering, future.

After a long period of uncertainty about what direction your life will take, you gain a glimpse of a long term goal that will occupy you for the next 15 years. You are willing to take on heavy challenges to stake out your future.

You powerfully acquaint yourself with the old wounds in your history that bring painful memories. The light of your consciousness reveals unique skills and healing talents which enrich your future identity and benefit others as a result.

These events - both good and bad - can be seen as a treasure chest for the personal journey of your soul. Every event that arises has meaning for you and is a result and consequence of previous actions. If you are able to see the challenges that arise as opportunities for constructive change, then your growth will be rapid, and you will be able to truly appreciate and enjoy the many positive events that also arise during the course of your year.
