**Dear thomas,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

You may be in your mid-sixties, but as you enter your 65th year, your mental interests are as alive as they have ever been. However this is a year when there are a number of practical matters that occupy your mind. It is important to take concrete steps to deal with worries that may arise. There are challenges that simply require perseverance, commitment and concentration. Challenges now have a lot to do with a long history of difficulties in relation to others. It seems that much is demanded of you in personal relationships, which require long-term application and commitment. Yet by taking responsibility and respecting the views and values of others, you can build a strong position in society as an unbiased and fair-minded person. These challenges have a lot to do with a latent insecurity that you feel about all those unmapped areas of the soul. You are not wholly sure that the world is a friendly place, and a history of loneliness or isolation paradoxically makes you even more reclusive. You have great karmic battles to fight, and the territory is your own soul, which needs spiritual restructuring. This is also a year when some kind of reorientation or realignment is necessary. The crucial question when looking at the balance of your life right now is whether focus on a need to prove yourself through creative achievement, children and love, prevents you from realizing the benefits of pooling your skills with a group. Perhaps true inspiration comes through being part of a greater social movement rather than through personal acclaim. Even more specifically it is worth considering whether an exaggerated focus on professional ambitions has prevented you from building up a secure family base from which you can gain a strong anchor and rewarding emotional nourishment. People or groups

who are no longer significant for the development of your soul may recede into the background now, and new people may turn up who have a role to play in your future.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life strategies for consolidating your earning power and getting paid what you are worth begin to succeed, though it can be hard going. Money is in short supply, but now is the time to put in place an economic framework that will give you security well into the future. These new influences started growing around January - 2015 and will ebb out around December - 2017. At the current time you know what your talents are, but you may be unsure whether you can live from them. You can. But you still need to conserve your resources and economize. Part of the key to prosperity is self-worth, and whilst success is as yet unproven you can facilitate the process by being restrained in your economic demands until you have established a firm foundation.

In this period of your life the focus changes from establishing security and economic stability to a more outgoing attitude that brings you into contact with people through travel and educational initiatives. These new influences start growing around December - 2017 and will ebb out around March - 2020. You become aware of areas in your intellectual development that need improvement, and the antidote to this is study. This is a long-term process of acquiring new mental skills that will serve you well, especially professionally, in the future. Initially you may be uncertain or shy, but the time demands overcoming inhibitions and reaching out to network with other people via all methods of communication. It is now that you develop the antennae that enable you to receive and broadcast knowledge.

### **Opportunities for Success**

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from October - 2017 to November - 2018 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your

ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from November - 2018 to December - 2019 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 65. Three very important issues that make this year special are:

- Your ethics and principles are put to the test as you take advantage of opportunities for expansion, travel and widening your intellectual horizons. You have a strong belief in the future, but you need to weigh risks against realities.
- A time that awakens a new mental sensitivity and interest in the arts, film and all areas of the imagination. It can be difficult to persevere with boring work, studies and other projects at this time as you long for some other kind of stimulation.
- There are many changes in your social life and relationships, as you seek more excitement, space and freedom. Involvement in fringe groups brings consciousness growth. Encounters with people from radically different cultures bring new methods of relating.
