**Dear HÒA,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

As you enter your forties and commence a new decade, you feel a sense of urgency about the future, and realize that a number of readjustments will be inevitable now that you are 40. This is a time when you review your mental skills - your education and communication - and take steps to optimize your intellectual capacity. There is extra focus on your comfort level - both economically and in relationships - and you will need to work harder on your weaknesses and capitalize on your strengths in these areas. You believe in the highest principles in love, and choose people and activities that expand your cultural horizons. Nothing can tie you down, and you travel far to find your soul mate. Your relationships come first. The impact you make when entering the scene guarantees a very active love life. More importantly, there are a number of factors that seem beyond your control, that threaten to derail the train. This is why this is a good time to step back from more concrete goals and consider your overall mission in the second half of your life. How can you get out of the rut at work and innovate and change? Opportunities for change and transformation should be welcomed rather than resisted. How can you get more emotional depth and meaning into your intimate relationships? For you and your generation there is a search for grand ideals and higher meaning, though it becomes apparent with time that truth is ultimately only relative. Personally you express these ideals in your choice of lifestyle, which is essentially unconventional and non-material, as you are always searching for a direction in life that holds spiritual meaning.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2015 and will ebb out around December - 2017. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

In this period of your life you feel that you have set in motion a new plan for your life. The framework is in place, your intentions have been made clear, and when you examine your feelings, you know you are on the right track. Now you enter a transition phase that requires concrete results. You need to consolidate your position and nurture your resources, so that you can actually achieve the new goals you have set yourself. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In this coming period you will be crucially aware of a shortage of funds, and this is an ideal motivation for increasing your earning power. You need to build the structural framework for future prosperity, and this has to start with economy and restraint. Learning about saving and budgeting are key issues, but it is also important for you not to underestimate your potential worth.

### **Opportunities for Success**

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from October - 2017 to November - 2018 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 40. Three very important issues that make this year special are:

- A series of educational or communication challenges undermine your confidence in your abilities. Through mental focus and improvement of skills you rise to the challenges and become more adept, even if you are initially overcome by worry or dejection.
- Revolutionary changes in the way you think about life and the future take hold, and your horizons dramatically expand through new intellectual interests or long-distance travel. This is a time to make a break with the limitations of the past and experiment with a new future.
- There is structural change, which affects aspects of your professional and personal life that have grown rigid and inimical to growth. The time has come to create more space and freedom, liberating yourself from sterile duties and building an inspiring future.
