**Dear Sandra,**

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

Your 49th year is a year of achievement, growth and consolidation during which you build on established foundations and generally feel comfortable with the path you have carved out for yourself. There is a sense that you have been accepted by society and have an important role to play, and the need to prove yourself makes way for a sense of satisfaction as regards your achievements during your forties. Challenges now have a lot to do with an inborn resistance to asserting yourself and your desires. Your will is strong, but chastened by early failures when you put your head above the parapet, you put stumbling blocks in front of yourself, and hesitate when courage and action are required. To attain what you want in life, fear of failure must be overcome. These challenges have a lot to do with a latent insecurity that you feel when you try to let go of inhibitions and perform. A lack of playful support and appreciation when you were young, means that you feel clumsy in romance, nervous about expressing creativity, and too formal in relation to children. Yet in time you overcome all these blockages by sheer effort. With a strong personal foundation, you are able to start a new phase of personal expansion and already this year you will reap the economical and social benefits of the efforts you have put in.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by

step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2015 and will ebb out around December - 2017. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

In this period of your life you feel that you have set in motion a new plan for your life. The framework is in place, your intentions have been made clear, and when you examine your feelings, you know you are on the right track. Now you enter a transition phase that requires concrete results. You need to consolidate your position and nurture your resources, so that you can actually achieve the new goals you have set yourself. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In this coming period you will be crucially aware of a shortage of funds, and this is an ideal motivation for increasing your earning power. You need to build the structural framework for future prosperity, and this has to start with economy and restraint. Learning about saving and budgeting are key issues, but it is also important for you not to underestimate your potential worth.

### **Opportunities for Success**

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from October - 2017 to November - 2018 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from

seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 49. Three very important issues that make this year special are:

- You embark on a process of mental experimentation, gaining familiarity with new communication technologies or mental developments methods. This is a time when you encounter new languages and travel considerable distances to ensure that you are where it is all happening.
- You enter a phase when there are challenges in establishing your position in your professional and personal life. The existing structures, or memories of negative experience, can limit your faith in your capabilities. Be realistic, but allow your natural optimism to win through.
- You receive an enormous consciousness boost, awakening an interest in untraditional subjects and bringing you into contact with exciting and alternative groups. This is a period of freedom, international travel and positive change.
