**Dear Christine,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

During your 56th year self-worth issues come to a head in relation to your love life and economy. If you are lucky in love, then more luck is due now. If you are looking for a relationship, then there is likely to be one, and if you are currently in a relationship, then this is a time to consolidate and cherish it, not least by cultivating the art of romance. As your aesthetic values become more important to you now, you may want to spend more money on life's pleasures, and this brings your whole economic situation into focus. You live for your love and relationships, and few people master the art of loving as you do. You strive for fairness and parity, but when it comes to aesthetics, the final word lies with you. You don't compromise on taste. Your relationships come first. The impact you make when entering the scene guarantees a very active love life. With your senses and desires so stimulated at this time, good judgment is required in the management of your economy. However you tend to be unresponsive to the advice of others, or too inclined to be guided by your personal convictions. Take care not to overreach yourself; seek the advice of experts. You need to be especially careful in matters connected with justice and the law. It is crucial at this time that you take stock of your life situation and make the adjustments necessary to work and relationships, so that they accord with your inner convictions of what your life is about.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your

vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

### **Opportunities for Success**

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between November - 2018 to December - 2019. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

## **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 56. Three very important issues that make this year special are:

- There are very exciting and unforeseen events that revolutionize the way you think in the months to come. Sudden journeys bring unexpected change. You learn new technologies for communication. Mental stress can lead to abrupt breaks in contacts
- You experience an awakening that shakes you out of the rut and leads you to break out of professional and personal limitations so that you can pursue your own unique path of self-development. Travel and contact with fringe groups bring self-awareness.
- You encounter obstacles romantically and economically that require that you take responsibility and lower expectations. You learn not to rely on others to confirm that you are lovable and attractive, but to build up your own self worth and esteem.
