Dear Camarae,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

The age of 16 is a time when the greatest developments are connected with relationships - socially, with friends, and of course romantically. This is the time when you can really try out your charms and get feedback about what makes you attractive and liked. At the same time you are developing your own truly individual tastes - what kind of clothes you like, what style you want to adopt, and not least what kind of people you are interested in. You live for your love and relationships, and few people master the art of loving as you do. You strive for fairness and parity, but when it comes to aesthetics, the final word lies with you. You don't compromise on taste. Love and longing go hand in hand in your search for the ideal soul mate - if such a person exists. There are spiritual solutions. So, after a year when your self-confidence was at times shaken, you now develop the social skills that help you get ahead.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life strategies for consolidating your earning power and getting paid what you are worth begin to succeed, though it can be hard going. Money is in short supply, but now is the time to put in place an economic framework that will

give you security well into the future. These new influences started growing around January - 2015 and will ebb out around December - 2017. At the current time you know what your talents are, but you may be unsure whether you can live from them. You can. But you still need to conserve your resources and economize. Part of the key to prosperity is self-worth, and whilst success is as yet unproven you can facilitate the process by being restrained in your economic demands until you have established a firm foundation.

In this period of your life the focus changes from establishing security and economic stability to a more outgoing attitude that brings you into contact with people through travel and educational initiatives. These new influences start growing around December - 2017 and will ebb out around March - 2020. You become aware of areas in your intellectual development that need improvement, and the antidote to this is study. This is a long-term process of acquiring new mental skills that will serve you well, especially professionally, in the future. Initially you may be uncertain or shy, but the time demands overcoming inhibitions and reaching out to network with other people via all methods of communication. It is now that you develop the antennae that enable you to receive and broadcast knowledge.

Opportunities for Success

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from October - 2017 to November - 2018 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from November - 2018 to December - 2019 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 16. Three very important issues that make this year special are:

- A time that can be very inspiring, as you let go of any blocks on your imaginative powers and are inspired by an artistic, creative and spiritual dream. This is a time of utopian promises, though whether anything is delivered on these promises depends on effort and persistence.
- You put negative thoughts behind you and mobilize the power of positive thinking and faith in the future that is the basis of all growth and happiness. By visualizing the future you want, you plant the seeds for that future to grow.
- A positive period of recognition and acclaim arises at this time as beneficial influences converge to make you feel good about yourself and confident about your prospects. This is the time to expand your horizons intellectually and through travel, and propagate your ideas.
