Read on and prepare yourself for a great journey...

The Significance of your Age

During the course of your 54th year, you are still in a period of dynamic consciousness growth that sees you experimenting with your life on several fronts. You are open to any changes that bring renewal and excitement, and this can bring international travel and input from cultures very different from your own. This is the time to embrace new technology and surf the wave of change in society, rather than holding on to established tradition. For you and your generation there is a willingness to experiment with the way you are integrated into the work force, and you are inclined to embrace new and revolutionary methods. Your particular way of expressing your uniqueness in this respect is through a pronounced personal projection of individuality and even idiosyncrasy. You inspire others through being different, but often feel like an outsider. At the same time there is a dawning spiritual sensitivity, and activities connected with nature, music or religion can bring inner enrichment. Furthermore this year is a time of emotional rebirth, and your feelings connected with home and family come strongly to the fore. Basically, when your emotions are aroused, you tend to stand on your pride and put a brave face on things. Reassurance for you comes in the form of appreciation from the people in your life you care for. Much of your emotional life is expressed through the inner world of your imagination, and solitude is often either imposed on you or chosen. Now is the time to confront latent emotional issues connected with bonding that can relate back to your childhood, so don't be surprised if this a bit of an emotional roller-coaster year when you are concerned about creating security and a safe base.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October -

2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 54. Three very important issues that make this year special are:

- A period when you freely embark on a psychological self-improvement program that leads you to abandon weaknesses that have been conditioned in the past and embrace a more authentic and aware personal style. You find renewed strength from the deepest source of your being.
- Unpredictable events raise your adrenal levels and bring out the fighting spirit in the coming months, making you more inclined to take considerable risks. Whilst the samurai spirit is awakened, you may provoke others unnecessarily.
- You experience a steroid boost that gives you the strength and courage to fight for what you want. Putting softer considerations aside you take a risk to expand your territory, traveling afar and meeting exciting people. You give yourself fully to your desires, both intellectually and bodily.
