**Dear seleana marie,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

As you enter your thirties and a new decade, it is important to harness the lessons you have learned from your twenties, whilst letting go of the parental and social conditioning that could, if not re-examined, lead you along a path that is not uniquely yours. During the course of this year, you will lay the foundation stones for a new life structure on which you can build your life, especially professionally, over the next 10 years. Challenges now have a lot to do with your opinions and views about overall issues in life, which tend to get rigid or dogmatic with age. Learning to be open to new ideas from other people is the key to intellectual flexibility, and you would be wise to avoid ideological confrontation, instead training yourself to express powerful ideas in a convincing manner. These challenges have a lot to do with a latent insecurity which you have felt since childhood, which has made you shy and reticent about your ability to make a favorable impression. Time is a great healer, and the older you get, the more confident you become. You meet the challenges of life head on, and this ultimately brings success. It is now you need to apply all your energy and willpower into achieving what you really want for yourself - not what others want for you. By nature you exude a deep passion and determination. You probe the mysteries of power and sexuality and maintain inscrutable control over emotions. The inner world of the imagination can be a battleground for you, as destructive fantasies are strong, and you tend to imagine threats which do not necessarily exist. By mobilizing your resources for battle, setting your sights, and investing all your energy, you embark on the first steps towards creating your own unique and independent future.

## **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2015 and will ebb out around December - 2017. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

In this period of your life you feel that you have set in motion a new plan for your life. The framework is in place, your intentions have been made clear, and when you examine your feelings, you know you are on the right track. Now you enter a transition phase that requires concrete results. You need to consolidate your position and nurture your resources, so that you can actually achieve the new goals you have set yourself. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In this coming period you will be crucially aware of a shortage of funds, and this is an ideal motivation for increasing your earning power. You need to build the structural framework for future prosperity, and this has to start with economy and restraint. Learning about saving and budgeting are key issues, but it is also important for you not to underestimate your potential worth.

## **Opportunities for Success**

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from October - 2017 to November - 2018 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are

interconnected, when you feel empathy and solidarity for fellow human beings.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 30. Three very important issues that make this year special are:

- A period that brings a crisis of faith as many of your beliefs are taken up, examined and found wanting. Intellectually dominating people try to bend you to their will, but you reject inauthentic beliefs and outworn ideas and replace them with a new vision for the future.
- Your hopes and dreams meet the demands of reality. If you are trying to escape from trying circumstances, you are reminded of your social responsibilities. If you understand how to work with limitations, you may be able to establish the foundations for a creative or social idea.
- A time that awakens a longing to use your time on projects that concur with your dreams and spiritual goals. A sense that you can get more out of your work and sexual life inspires you to discover new ways of working and new forms of physical expression.
