Dear Morgan,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

After a year of reorientation, you are now embarking on a period during which you now have a good sense of what you want to embrace in connection with your future growth, and what you want to leave behind. You have a sense of personal mission and important decisions have been made. [NN_sign_age] [NN_house_age] The age of 19 is a time when you are in the early stages of discovering independence and investigating what makes you uniquely you. A growing restlessness suggests that you are ready to make a break with what parents and society have been traditionally expecting of you, even if it means being contrary and provocative. For you and your generation there is a willingness to experiment with social structures, and you are inclined to embrace revolutionary new ways of grouping with other people. Your particular way of expressing your uniqueness in this respect is through seeking alternative modes of employment and maintaining space and freedom in your daily life at work and at home. You are willing to change work regularly to avoid getting stuck in a rut.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family

and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October - 2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities

during the age of 19. Three very important issues that make this year special are:

- You feel you can comfortably take on more work and responsibility and this gives you added weight and influence. There is a growing confidence in your capabilities, which reflects itself in a willingness to live out your ambitions, not dramatically, but through careful planning.
- Your heart is opened and there is a growing desire for both romantic satisfaction and material comfort. Appetites are strong - so strong that they can lead you astray. Ethical principles and moral consideration tend to recede into the background when desires rule.
- The efforts you have made in the past to build up a stable framework in your life start to bring concrete results and advantages. You approach challenges with a confident and mature attitude and are able to consolidate your position both professionally and domestically.
