Birth Report

Dear Jacqueline Howarth,

Thank you for ordering your Birth Horoscope MiniReport, which is sure to help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

In designing this short reading, I have focused on what is especially unique to you. But - even more important - I have identified the most crucial influence on your immediate future and this will enable you to optimize good fortune in your life. Read on and prepare yourself for a great journey...

The strongest influence in your birth horoscope is "Mercury Opposition Pluto". This is both a great talent and a great challenge. Know yourself, and you will be able to optimize the talent and overcome the challenges.

How this influence affects your personal life:

You are a rather secretive person; you think hard and deeply, and sometimes you are plagued by compulsive ideas and fears. Much of this is a result of childhood anxiety connected with lies, secrets or lack of communication. Because you do not always let on what you are thinking, you can easily be misunderstood. Put people's minds at rest by clearing up these misunderstandings and strive to be as open as circumstances permit. When your feelings are hurt you can be silent for long periods. And when you are insecure, you tend to be suspicious of your partner. Harmony in relationships comes when you resist the tendency to argue for hours at a time, or to use silence as a weapon, and instead learn to be open and trusting.

How this influence affects your professional life:

You have an investigative mind and considerable talent for finding out about hidden issues and analysing things in depth. You are also good at keeping secrets. As such you are a natural detective and are able to find the root cause of problems. This is a useful talent in psychological matters, when working with computers or anything requiring fanatical

attention to detail. There is an ability to tap hidden sources of information. In your professional life, however, you are inclined to be suspicious, fearing that important information is being kept from you. People can feel that you interrogate them, and they tend to clam up. Sometimes you express yourself far too forcefully and do not allow people to come with their views. Success comes when you overcome communication problems connected with anxiety.

As you mature, you will get better and better at making the most of your talents and changing unwanted behaviour. Opportunities arise because the universe does not stand still. In astrology current trends in your life are identified by following the movement of the planets and how they relate to your birth horoscope - called planetary transits. Below I have identified the single most powerful influence in your life right now. When you understand this influence, you'll know exactly how to make the most of the opportunities presented to you.

The most powerful influence in your life right now is "Neptune Trine Neptune". Transits tend to last for about a year, and there are three intense peaks of power during that period. If you don't get it right first time, understanding the following trend will certainly help you get it right the last time!

How this influence affects your personal life:

Everyone aged 41 will experience this influence, though those with Pisces on their Ascendant may react more strongly than others. This is a good period for spending time on spiritual, creative, musical and artistic interests, and in general you should pay more attention to inner rather than outer needs now. You may expect some spiritual reorientation as you consider the basic meaning of your life. If you feel any inner despair or meaninglessness, then this is a signal for you to take steps to nurture your soul life. Be particularly aware of the negative affects of alcohol and medicine misuse.

How this influence affects your professional life:

This influence is experienced by everyone around the age of 41, and as such its effect is rather general. It is however important to consider to

what extent your career lives up to your dreams and ideals, because this is the time when you can adjust working rhythms to incorporate some of your dreams. If you have a predisposition for escapism or lack of organisation, you can expect to be confronted by a general sense of dissolution. It can pay to take some time off to tune in to Nature and spiritual or creative interests. At the same time you may wish to review the influence of alcohol or drugs on your life and make some changes.

Now you know something about what makes you special, and something about what makes this period of your life special. However, this MiniReport has not taken into account two very important factors, which make a chart reading even more accurate. When you also supply your birth time and birthplace, the planets can be placed in context in your horoscope using the 12 houses. With this information you can obtain a really accurate description of your challenges and potentials regarding work, love, sexuality, attachment and a lot more. I'd love you to take advantage of this opportunity to get a full horoscope report of about 20+ pages delivered to your email.
