Report for June 27, 2017 to June 27, 2018

Dear Mike,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

Your 49th year is a year of achievement, growth and consolidation during which you build on established foundations and generally feel comfortable with the path you have carved out for yourself. There is a sense that you have been accepted by society and have an important role to play, and the need to prove yourself makes way for a sense of satisfaction as regards your achievements during your forties. Challenges now have a lot to do with an inborn resistance to asserting yourself and your desires. Your will is strong, but chastened by early failures when you put your head above the parapet, you put stumbling blocks in front of yourself, and hesitate when courage and action are required. To attain what you want in life, fear of failure must be overcome. These challenges have a lot to do with a latent insecurity that you feel in relation to authority. This has arisen because of a dominating parental figure who believed the stick was better than the carrot. You have strong ambitions but not enough faith in yourself. Yet in time you will acquire authority, although the trick is to be satisfied with your success rather than driving ever onward. With a strong personal foundation, you are able to start a new phase of personal expansion and already this year you will reap the economical and social benefits of the efforts you have put in.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by

step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period the major challenges lie in your working life, which probably needs to be made more efficient through streamlining working methods and improving interaction with colleagues. Health-wise too, this is an excellent time for working on self-improvement. This influence started growing around January - 2015 and will ebb out around December - 2017. You will probably encounter considerable frustration in your dealings with people in the working environment, and this process is designed to enhance your ability to compromise and to fit in for the good of the whole. To be happy at work now you need to work hard and have a plan. You do not have to have a subordinate role, if you are willing to shoulder responsibility. But you do not have to stick at a job which is beneath you either. Establish your credentials, work hard and advance.

In this period of your life there is a transition in your dealings with people, as you move from interacting with people on a practical level in connection with your work and daily life, to actually learning how to deal with partners on a one to one basis. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is the beginning of an outgoing epoch in your life; the big test comes in how you live up to partnership responsibilities. There are major challenges, demands are made on you, and you have to on the one hand resist giving others the blame for your issues, whilst on the other you need to establish limits to what you are prepared to accept in a relationship. You have to work at partnership now and make a commitment, though it is no use expending any more time on hopeless relationships. What you start now can last a long time.

Opportunities for Success

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between September - 2016 and October - 2017. This brings insight and good fortune connected with property and family. At this time you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more about how to create a nurturing and stimulating environment for yourself and those near to you.

After having built up comfortable circumstances in your domestic life, what is important for you between October - 2017 and November - 2018 is to appreciate

the fruits of having a satisfying base, so that you can express yourself through creative activity and enjoy the art of living. Expansion and satisfaction come from living life to the full - through sport, festivity, love, children and romance. This is the time to fully be yourself without reservations or doubt. Larger than life characters will show you how through encouraging you to celebrate existence.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 49. Three very important issues that make this year special are:

- Challenges arise which at first powerfully affect your self confidence, as successes are few and far between and recognition and respect lacking. By working on building your character and patiently shouldering responsibility, you establish a position of confidence.
- You encounter obstacles romantically and economically that require that you take responsibility and lower expectations. You learn not to rely on others to confirm that you are lovable and attractive, but to build up your own self worth and esteem.
- A series of challenges in relation to communication at work and at home, travel or project delays and other frustrations, slows you down and forces you to concentrate on learning basic skills and attending to detail. Think positive rather than succumbing to worry.
