Dear Ryan,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 20th year you continue the trend from the previous year in which you assert exactly what it is about you that makes you unique. The urge to differentiate yourself from the norm is strong. For you and your generation there is a willingness to experiment with social structures, and you are inclined to embrace revolutionary new ways of grouping with other people. Your particular way of expressing your uniqueness in this respect is through shunning the attractions of material desires and embracing alternative values. This can result in a precarious economy, but for you it is worth it for the freedom this brings. At 20, developing your skills and mental talents is paramount. This is a year in which you are absorbed by justice and issues of right and wrong, although there is a tendency to be subjective in your own judgment and a little bit too categorical. You have a humanitarian soul and feel a strong sense of solidarity with your fellow man. Your ideals are strong and unshakeable, especially as regards social matters, and you never compromise these ideals, though you will show flexibility if it means facilitating the evolution of a group or organization. This will reflect itself in great confidence about your personal worth and bring financial prosperity in the current year, not just for you, but also for those who benefit from your grasp of financial issues. Despite the early revolutionary tendencies of the year, you are fully aware of the responsibilities weighing on you as you enter adult life, and you work hard to create a framework for growth into your twenties.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around December - 2017 and will ebb out around March - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

Opportunities for Success

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from November - 2018 to December - 2019 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 20. Three very important issues that make this year special are:

- A wonderful period of growth, spiritual awareness and awakening of compassion, perhaps because you are swept up in an inspiring collective event, or through the

influence of a spiritual mentor, music, film or art. You attune to the rewards within your own mind.

- Current relationships are shaken up as you search for more freedom and excitement. Values change and you make unconventional choices, travel long distances for love, and enjoy relationships with fringe groups and people who walk on the wild side.
- You are energized, courageous and willing to take a risk. Your conviction that you are right cannot be deflected, and this can lead you into confrontation with people who have a different opinion, or to people who feel bulldozed by your gung-ho attitude.
