**Dear Monica,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

During the course of your 28th year, there is the sense that you have achieved a lot, been through a lot, yet the answers are not to be found in these achievements and experiences. It is difficult to hold on to the structures you have created, and you are not even sure you want to. You may ask yourself just how much you have been conditioned to go along the path you have taken, and you may feel that some of the steam has gone out of the machine. A positive transformation is called for at this time, and it is wise to take a hard look at what it is in your life you are tired of, and eliminate it. This can be quite an exhausting psychological process, and there is a tendency to go to emotional extremes. Some anxieties are connected with a generational influence that relates to a range of taboo subjects, not least sexuality. At this time you may wish to examine emotional or sexual habits that may be too extreme or manipulative. More specifically you become aware of an anxiety about putting yourself and your creativity on the line, which may result in overdoing it when you try to impress others, or simply remaining invisible. This is the time to inaugurate a creative transformation in your life.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period the major challenges lie in your working life, which probably needs to be made more efficient through streamlining working methods and improving interaction with colleagues. Health-wise too, this is an excellent time for working on self-improvement. This influence started growing around January - 2015 and will ebb out around December - 2017. You will probably encounter considerable frustration in your dealings with people in the working environment, and this process is designed to enhance your ability to compromise and to fit in for the good of the whole. To be happy at work now you need to work hard and have a plan. You do not have to have a subordinate role, if you are willing to shoulder responsibility. But you do not have to stick at a job which is beneath you either. Establish your credentials, work hard and advance.

In this period of your life there is a transition in your dealings with people, as you move from interacting with people on a practical level in connection with your work and daily life, to actually learning how to deal with partners on a one to one basis. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is the beginning of an outgoing epoch in your life; the big test comes in how you live up to partnership responsibilities. There are major challenges, demands are made on you, and you have to on the one hand resist giving others the blame for your issues, whilst on the other you need to establish limits to what you are prepared to accept in a relationship. You have to work at partnership now and make a commitment, though it is no use expending any more time on hopeless relationships. What you start now can last a long time.

### **Opportunities for Success**

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between September - 2016 and October - 2017. This brings insight and good fortune connected with property and family. At this time you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more about how to create a nurturing and stimulating environment for yourself and those near to you.

After having built up comfortable circumstances in your domestic life, what is important for you between October - 2017 and November - 2018 is to appreciate the fruits of having a satisfying base, so that you can express yourself through creative activity and enjoy the art of living. Expansion and satisfaction come from living life to the full - through sport, festivity, love, children and romance. This is the

time to fully be yourself without reservations or doubt. Larger than life characters will show you how through encouraging you to celebrate existence.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 28. Three very important issues that make this year special are:

- You spiral deeper and deeper into a personal crisis because circumstances that have existed for some time, but which you are completely tired of, become more intense and acute. Ultimately you eliminate the past and leap into an unknown, yet empowering, future.
- A time that makes you keenly aware of what is missing from your life and work that would satisfy your dreams and imagination. Music and the arts bring renewed pleasure, repetition and routine undermine your spirit. This is the time to express your creative communicative powers.
- An exceedingly optimistic period begins when you gain insight into the meaning and direction of your life, expand your boundaries of knowledge and learning and widen your horizons through travel. This is a time when you develop a humorous attitude to life.
