**Dear Claire,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

During the course of your 58th year there is the sense that life has come full circle. Ambition has served its purpose, and you can look back on a series of achievements that have crowned your professional life. Now, with the wisdom of years, you realize that there is little sense in driving upwards and onwards to satisfy ambitions... what would be the point? The question is: what can you take from your current professional status to work on and continue to develop? Or has the time come to bow out from the rat race, wind down, and maximize your life quality in the last phase of your life? You cannot build your future on the framework of the past you can either build a new framework, if you have the willpower and energy, or allow the old one to dissolve. You still have the chance to define what is uniquely you. Challenges now have a lot to do with your motivation to attain a position of authority in society. Many setbacks pave the path to success, and as the years go by more responsibility is placed on your shoulders. From being sensitive or even resentful of authorities, you learn what it means to protect the institutions that make civil society a blessing. These challenges have a lot to do with a latent insecurity that you feel in relation to authority. This has arisen because of a dominating parental figure who believed the stick was better than the carrot. You have strong ambitions but not enough faith in yourself. Yet in time you will acquire authority, although the trick is to be satisfied with your success rather than driving ever onward. There is nothing to prove, but if you allow yourself to be guided by your ultimate life purpose, there can still be mountains to conquer in the years ahead.

## **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges lie in creating a future you can believe in. There is a sense of change and potential that brings a new optimism about the future, but you can struggle to find the best moral or intellectual framework for the new beliefs about your life that are taking root now. There is a strong urge to expand your intellectual horizons through study or travel and this is an excellent time to commence a long term commitment to growth, which ultimately brings new skills that will advance your career. This influence started growing around January - 2015 and will ebb out around December - 2017. Issues of conscience can trouble you, and matters of right and wrong can occupy your mind. Basically you are building up a new set of ethical values which will guide your future process.

In this period of your life you are ready to make the transition from learning to doing. Over the last few years you have expanded your horizons both intellectually and through travel, and formed firm new views about your direction in life. You have built up a framework of beliefs and convictions that point you like an arrow to your destiny. The focus now shifts to your career and making a professional impact. This new influence starts growing around December - 2017 and will ebb out around March - 2020. Your immediate experience is one of being seriously challenged - by authorities and by the way the system is put together. If you are to attain career success you are going to have to establish your own authority and carve out your own niche. You need to win respect through a determined approach. Plan your long-term goals and achieve them slowly and steadily, step by step.

## **Opportunities for Success**

Having thoroughly established considerable success in your working environment, you are ready to build up one-to-one relationships through partnership in the period from September - 2016 to October - 2017, expanding your sphere of influence and reaching out socially. Fortunate meetings with cosmopolitan and wise people can bring happiness and a new optimistic view of your potential to make an impact on others.

After a period during which relationships prospered and your circle of social influence expanded, you are ready to delve deeper into the psychological dynamics of intimate personal relationships in the period from October - 2017 to November - 2018. A deeper understanding of and empathy for others is developed, enriching your emotional and erotic life. You receive blessings both in the form of emotional generosity and material good luck.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 58. Three very important issues that make this year special are:

- You will be gripped by an electrifying exhilaration, prompting you to make changes in the way you live your life. Self-realization is the key - it is your time, and nobody can stand in the way of this inner revolution. There are international travels and encounters.
- You feel you can comfortably take on more work and responsibility and this gives you added weight and influence. There is a growing confidence in your capabilities, which reflects itself in a willingness to live out your ambitions, not dramatically, but through careful planning.
- You experience setbacks and trials of endurance when trying to achieve your goals - particularly in your dealings with male authorities. By steeling your will to overcome these challenges, you develop the necessary muscle to win through with your agenda.
