Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

During the course of your 58th year there is the sense that life has come full circle. Ambition has served its purpose, and you can look back on a series of achievements that have crowned your professional life. Now, with the wisdom of years, you realize that there is little sense in driving upwards and onwards to satisfy ambitions... what would be the point? The question is: what can you take from your current professional status to work on and continue to develop? Or has the time come to bow out from the rat race, wind down, and maximize your life quality in the last phase of your life? You cannot build your future on the framework of the past—you can either build a new framework, if you have the willpower and energy, or allow the old one to dissolve. You still have the chance to define what is uniquely you. Challenges now have a lot to do with your motivation to attain a position of authority in society. Many setbacks pave the path to success, and as the years go by more responsibility is placed on your shoulders. From being sensitive or even resentful of authorities, you learn what it means to protect the institutions that make civil society a blessing. These challenges have a lot to do with a latent insecurity which you have felt since childhood, which has made you shy and reticent about your ability to make a favorable impression. Time is a great healer, and the older you get, the more confident you become. You meet the challenges of life head on, and this ultimately brings success. There is nothing to prove, but if you allow yourself to be guided by your ultimate life purpose, there can still be mountains to conquer in the years ahead.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around December - 2017 and will ebb out around March - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

### **Opportunities for Success**

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from November - 2018 to December - 2019 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 58. Three very important issues that make this year special are:

- There are daunting challenges ahead which initially undermine your self confidence and belief in your capabilities. Progress is slow or non-existent as

obstacles arise at every turn. Through concerted effort and perseverance you prove to yourself that you can do it.

- You have reached a milestone when the habits and structures you have build up in the past can no longer function in the future that is dawning. Restructuring is necessary. You have a duty to pursue your own mission in life, rather than living up to the expectations of others.

- You enter a period of financial expansion and good fortune in relationships, as trends peak to enable you to harvest what you have earned. The tendency to overindulge is strong and some restraint is advised, but it is also important to celebrate the good things in life.
