Dear leonard,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During the course of your 28th year, there is the sense that you have achieved a lot, been through a lot, yet the answers are not to be found in these achievements and experiences. It is difficult to hold on to the structures you have created, and you are not even sure you want to. You may ask yourself just how much you have been conditioned to go along the path you have taken, and you may feel that some of the steam has gone out of the machine. A positive transformation is called for at this time, and it is wise to take a hard look at what it is in your life you are tired of, and eliminate it. This can be quite an exhausting psychological process, and there is a tendency to go to emotional extremes. Some anxieties are connected with a generational influence that relates to a range of taboo subjects, not least sexuality. At this time you may wish to examine emotional or sexual habits that may be too extreme or manipulative. More specifically you become aware of anxieties connected with your physical appearance and self worth which you may overcompensate for by spending. This is an excellent time to become aware of this process and transform your economy.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between November - 2018 to December - 2019. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities

during the age of 28. Three very important issues that make this year special are:

- In terms of survival issues connected with work, and your drives and sexuality, this is a time when extreme conditions evoke drastic action and far-reach decisions for change. Power battles evoke an inner psychological strength that you never knew you possessed.
- You have reached a milestone when the habits and structures you have build up in the past can no longer function in the future that is dawning. Restructuring is necessary. You have a duty to pursue your own mission in life, rather than living up to the expectations of others.
- A series of challenges in relation to communication at work and at home, travel or project delays and other frustrations, slows you down and forces you to concentrate on learning basic skills and attending to detail. Think positive rather than succumbing to worry.
