**Dear Pradeep,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

As you enter your forties and commence a new decade, you feel a sense of urgency about the future, and realize that a number of readjustments will be inevitable now that you are 40. This is a time when you review your mental skills - your education and communication - and take steps to optimize your intellectual capacity. There is extra focus on your comfort level - both economically and in relationships - and you will need to work harder on your weaknesses and capitalize on your strengths in these areas. In love you want to be proud - of what you give so warmly, and of the respect you receive from your partner. Your values are creative and meant to celebrate life, love, children and play. Love and longing go hand in hand in your search for the ideal soul mate - if such a person exists. There are spiritual solutions. More importantly, there are a number of factors that seem beyond your control, that threaten to derail the train. This is why this is a good time to step back from more concrete goals and consider your overall mission in the second half of your life. How can you get out of the rut at work and innovate and change? Opportunities for change and transformation should be welcomed rather than resisted. How can you get more emotional depth and meaning into your intimate relationships? For you and your generation there is a search for grand ideals and higher meaning, though it becomes apparent with time that truth is ultimately only relative. Personally you express ideals in this connection in your domestic life, where a fluid relationship to family tends to rob you of an anchor, whilst inspiring you to create utopias.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

### **Opportunities for Success**

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October -

2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 40. Three very important issues that make this year special are:

- You experience setbacks and trials of endurance when trying to achieve your goals - particularly in your dealings with male authorities. By steeling your will to overcome these challenges, you develop the necessary muscle to win through with your agenda.
- There are mental challenges ahead, which - though you may at first doubt your abilities - you meet head on and overcome. Through the application of your powers of concentration, you build up proficiency in particular areas which stand you in good stead for the future.
- You enter a phase when there are challenges in establishing your position in your professional and personal life. The existing structures, or memories of negative experience, can limit your faith in your capabilities. Be realistic, but allow your natural optimism to win through.
