Dear Mary,

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During your 56th year self-worth issues come to a head in relation to your love life and economy. If you are lucky in love, then more luck is due now. If you are looking for a relationship, then there is likely to be one, and if you are currently in a relationship, then this is a time to consolidate and cherish it, not least by cultivating the art of romance. As your aesthetic values become more important to you now, you may want to spend more money on life's pleasures, and this brings your whole economic situation into focus. In relationships, commitment is the key for you. You are prepared to overcome many challenges to be, and stay with, the partner you are destined for. Love and status go hand in hand as you consolidate your position in society. Your relationships come first. The impact you make when entering the scene guarantees a very active love life. With your senses and desires so stimulated at this time, good judgment is required in the management of your economy. However you tend to be unresponsive to the advice of others, or too inclined to be guided by your personal convictions. Take care not to overreach yourself; seek the advice of experts. You need to be especially careful in matters connected with justice and the law. It is crucial at this time that you take stock of your life situation and make the adjustments necessary to work and relationships, so that they accord with your inner convictions of what your life is about.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your

vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around December - 2017 and will ebb out around March - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

Opportunities for Success

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from November - 2018 to December - 2019 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 56. Three very important issues that make this year special are:

- Both on the romantic and economic front there are obstacles and difficulties. The flow is blocked, and you do not receive the support you want, which initially undermines your self-worth. Keep expectations low and cultivate frugal habits - you are building solid foundations for the future.

- There are heavy challenges at work and in relation to dominating male authorities that initially undermine confidence in your strength and personal autonomy. There may also be lack of sexual self-confidence. Where there is a will there is a way - this is a time for working on personal power.

- A wonderful period of growth, spiritual awareness and awakening of compassion, perhaps because you are swept up in an inspiring collective event, or through the influence of a spiritual mentor, music, film or art. You attune to the rewards within your own mind.
