Dear Vini,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

After the struggles and challenges of the previous year, your 23rd year brings welcome expansion and renewed optimism. Everyone needs the dream of a pot of gold at the end of the rainbow to inspire them, and it is now that you begin to harvest some of the rewards for all the hard work you have done. You have a natural capacity to investigate hidden and secret material in your own psyche and in the world. An awareness of life as a process of constant death and rebirth brings psychological wisdom, gained through ruthlessly pursuing authenticity and emotional truth, whilst nurturing an understanding of the demons other people struggle with. This will reflect itself in great confidence about your personal worth and bring financial prosperity in the current year, not just for you, but also for those who benefit from your grasp of financial issues. In addition, this is a year when you may want to make adjustments in your purpose or inner life mission. Some of the social groups you are involved with may have values that run at counter purpose to your own, yet you can gain valuable experience from relating to people with different values. The crucial question when looking at the balance of your life right now is just how much real satisfaction you are getting from your material attachments and the questionable comforts they bring. Perhaps there is more authenticity and intensity to be found in psychological transformation and the pursuit of non-material values. Even more specifically it is worth considering whether a focus on intense emotional interaction and sexuality has tended to produce upheavals and prevented you from consolidating your relationships on the one hand and creating economic stability on the other.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

Opportunities for Success

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from September - 2016 to October - 2017 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves

to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 23. Three very important issues that make this year special are:

- You enter a period of financial expansion and good fortune in relationships, as trends peak to enable you to harvest what you have earned. The tendency to overindulge is strong and some restraint is advised, but it is also important to celebrate the good things in life.
- A new twelve year cycle starts in which you reaffirm or readjust the meaning and direction of your life. This is the time to tune in to your full potential as an individual and to define a moral and spiritual mission that will inspire you in the years ahead.
- A time that can be very inspiring, as you let go of any blocks on your imaginative powers and are inspired by an artistic, creative and spiritual dream. This is a time of utopian promises, though whether anything is delivered on these promises depends on effort and persistence.
