**Report for August 03, 2017 to August 03, 2018**

**Dear vatasescu,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

As you enter your 59th year you appreciate the significance of your age on the threshold to the sixties, with the realization that your greatest achievements may well lie behind you, whilst the future both professionally, economically and in terms of relationships is dependant on the structures you have already created. Yet this very realization has a settling affect; you are too wise to struggle against the inevitable, and fully aware that any decisions you make now will have effects that can last the rest of your life. It is at this age that you really can plan how you would like your future to be, using your knowledge and experience of the society of which you are a part, to maximize the benefits that the future can bring, and minimize the limitations. Your diplomatic abilities are excellent and you have a natural sense of what is right and fair, which means that you go a long way in the cause of justice. A natural ease with relationships makes rewarding partnership a constant blessing in your life. You love to learn, and this is expressed in aesthetic and cultural interests and talents. This will reflect itself in your marvelous communication abilities and insatiable appetite to expand into your local environment and learn more. In the current year you can expect success and satisfaction in these areas, and a general expansion of your network. Radical experimentation can be left to those who follow in your footsteps, but if your economy is strong, and your professional foundations firm, you can easily build further on what you have achieved.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand

on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are focused on developing your creative skills and displaying the fruit of hard-working efforts to express yourself. This influence started growing around January - 2015 and will ebb out around December - 2017. Overcoming reticence and concern about whether what you produce is good enough is a major issue. There is considerable sensitivity about everything which is a reflection of who you are - your children, your love life and your ability to shine in social gatherings. In brief your ability to enjoy the art of living. If you cannot achieve spontaneity and be carefree, do not worry. What is needed is committed application to activities that interest you. Repeated failure always paves the way to success if you cultivate the virtue of perseverance.

In this period of your life you are searching for ways to apply your creative skills in practice. You have been working hard to overcome blockages in self-expression and to acquire the confidence to put yourself and your creativity on the line. A transition is now taking place that requires committed cooperation with others to put your skills to good use. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is no longer so much about you, but about how you integrate with others and offer your services for the benefit of the whole. In this process you will encounter challenges at work and with colleagues, which test your humility and willingness to serve. It is good training. This is also a time to focus on your body, which, if it is to serve you well, needs to be nurtured with healthy daily habits.

### **Opportunities for Success**

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between September - 2016 to October - 2017. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between October - 2017 and November - 2018. This brings insight and good fortune connected with property and family. At this time

you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more about how to create a nurturing and stimulating environment for yourself and those near to you.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 59. Three very important issues that make this year special are:

- You feel an exhilarating urge to throw out ideas and beliefs that have been imposed on you by so-called intellectual authorities and experiment with a whole new set of convictions, especially as regards the future. Intercontinental travel and unconventional groups expand your mind.
- You have the time and the will to mobilize your energy over the long term to produce creative results. This is a great time for physical work, training and building. Good planning and a willing assistant can bring lasting practical results in your life.
- An awakening of your capacity to experience love at its highest level, especially through spiritual experience and the arts. Whilst this is a romantic period, personal love is often experienced as illusory or unrequited. It is the universal nature of love and compassion that enriches.
