Birth Report

Dear Tyutyu Tydfty,

Thank you for ordering your Birth Horoscope MiniReport, which is sure to help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

In designing this short reading, I have focused on what is especially unique to you. But - even more important - I have identified the most crucial influence on your immediate future and this will enable you to optimize good fortune in your life. Read on and prepare yourself for a great journey...

The strongest influence in your birth horoscope is "Sun Trine Saturn". This is both a great talent and a great challenge. Know yourself, and you will be able to optimize the talent and overcome the challenges.

How this influence affects your personal life:

You are a rather formal person who takes life seriously. Childhood experiences - especially the relationship with your father - has undermined your self-confidence and made you reluctant to stick your neck out. You are more likely to bury your "talent" than gamble with it. You have a strong need for approval, but as a child love and approval was always conditional on your performance. You have been more appreciated for what you did, than for who you are. Later in life you tend to judge yourself harshly, and you have a bad conscience about enjoying life and relaxing. You tend to be too dismissive when offered love and affection, and rather severe when giving it. There may be authoritarian tendencies and a lack of flexibility as regards rules. Nevertheless, you are a person who can be trusted. You have high principles, and as you do not indulge expectations of the easy life, you work hard to build up a secure structure in life for those you hold dear.

How this influence affects your professional life:

You are a hard-working and ambitious person with a strong drive to prove yourself in society. There may however be difficulties with authorities, despite your desire to live up to the expectations of society.

The first 30 years of your life will bring a great deal of obstacles to success, but you will learn important lessons and ultimately develop a self-sufficiency and discipline which lays the foundation for success later in life. It is important for you to overcome negativity or pessimism concerning the future. Not all success is won by hard work alone. You are often more motivated by the fear of failure than the promise of reward, and this can hold you back from realising your full potential. If all goes well you will acquire more and more responsibility during the course of your life - and you deserve it. You are conscientious and take your responsibilities seriously. You are the kind of person other people can rely on. You would rather be the power behind the throne, than have a high profile yourself. Remember to take time to enjoy the fruits of your efforts, instead of continuously driving yourself onwards.

As you mature, you will get better and better at making the most of your talents and changing unwanted behaviour. Opportunities arise because the universe does not stand still. In astrology current trends in your life are identified by following the movement of the planets and how they relate to your birth horoscope - called planetary transits. Below I have identified the single most powerful influence in your life right now. When you understand this influence, you'll know exactly how to make the most of the opportunities presented to you.

The most powerful influence in your life right now is "Uranus Trine Mars". Transits tend to last for about a year, and there are three intense peaks of power during that period. If you don't get it right first time, understanding the following trend will certainly help you get it right the last time!

How this influence affects your personal life:

This is one of the most impulsive periods in your life, and you can expect a lot of excitement - or trouble - in these months. There is a resurgence of energy and a desire to break free and do something different. Feeling bored is like the ringing of an alarm clock, which is telling you to take steps to create a more stimulating backdrop for your life. People at this time are inclined to take risks - parachuting, karate, mountain climbing and similar activities exert an almost magnetic attraction. Women at this time are inclined to get restless in their

relationships and be rather provocative. If unattached there is a tendency to get involved with a very unpredictable type of man who can bring an element of excitement into the life. Often there are meetings with foreigners or long-distance travel in connection with love. Sexually this can be a time of dramatic awakening, partly due to a more experimental attitude towards sex. Though love-affairs may serve to galvanise the mind and body now, relationships are characterised by tension and periodic separation. Men experiencing this transit will also be restless, and have a roving eye. For men too, this is a good time for sexual experimentation. The urge for freedom tends to threaten established relationships. To avoid sabotaging worthwhile relationships now, it is essential to find new challenges at work or exciting projects to undertake in your private life.

How this influence affects your professional life:

This is a dynamic and inspiring period, though not without an element of danger. You can hardly tolerate anyone telling you what to do now, so you are likely to experience conflict with those in authority. If there is trouble at work, seen objectively it is probably you who is being unreasonable. Your restlessness and desire for change hardly inclines you to compromise and settle in to some boring job now. You need excitement, independence, and a challenge. You would function better on your own now, especially if you could do some travelling internationally. If you have been dreaming of setting yourself up independently, this is the time to do it. There is very little fear of taking risks during this period, and plenty of energy to go it alone. This is an excellent period for taking initiatives concerning change and renewal. There is a strong likelihood of long-distance travel to exotic destinations. Unconventional work is favoured, particularly in connection with New Age matters. However patience is low, and temper is high. This is an explosive cocktail which can make you more provocative than usual, so take care. You may be fascinated by mechanical or technical matters now, and this is a good time to develop talents in this area.

Now you know something about what makes you special, and something about what makes this period of your life special. However, this MiniReport has not taken into account two very important factors,

which make a chart reading even more accurate. When you also supply your birth time and birthplace, the planets can be placed in context in your horoscope using the 12 houses. With this information you can obtain a really accurate description of your challenges and potentials regarding work, love, sexuality, attachment and a lot more. I'd love you to take advantage of this opportunity to get a full horoscope report of about 20+ pages delivered to your email.
