Report for April 07, 2017 to April 07, 2018

Dear Amy,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your fifties and commence a new decade, there is the realization that your character is now fully developed - you are who you are - it is now more a question of building on your talents, resources and achievements rather than proving yourself anew. You can be assessed by what you have achieved so far in life, and what there is to come is very much a bonus defined by your attitude and will. The challenge at this time is to find renewed hope and vision, yet it is a time when misjudgments tend to take place, either through lack of confidence or through being overly hopeful about the future. You tend to insist on following your own convictions without being sensitive to the opinions of others. At the same time, there are deeper issues connected with your mortality, and your ability to pass on the body of wisdom you have acquired to those who follow after you. You are poignantly aware of areas in your inner life that need healing, or where there are flaws and weaknesses, for they will surely surface in your 50th year. For you this is profoundly connected with an old spiritual wound that has constantly reminded you of the helplessness of the individual in the greater scheme of things. This is the time when the knowledge of universal suffering brings a wisdom of its own. This is manifested as discomfort in relation to the vastness of the spirit and cosmos, which can leave you with a sense of alienation or insignificance. A spiritual path can put you in contact with unique healing and meditation abilities.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand

on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges lie in creating a future you can believe in. There is a sense of change and potential that brings a new optimism about the future, but you can struggle to find the best moral or intellectual framework for the new beliefs about your life that are taking root now. There is a strong urge to expand your intellectual horizons through study or travel and this is an excellent time to commence a long term commitment to growth, which ultimately brings new skills that will advance your career. This influence started growing around January - 2015 and will ebb out around December - 2017. Issues of conscience can trouble you, and matters of right and wrong can occupy your mind. Basically you are building up a new set of ethical values which will guide your future process.

In this period of your life you are ready to make the transition from learning to doing. Over the last few years you have expanded your horizons both intellectually and through travel, and formed firm new views about your direction in life. You have built up a framework of beliefs and convictions that point you like an arrow to your destiny. The focus now shifts to your career and making a professional impact. This new influence starts growing around December - 2017 and will ebb out around March - 2020. Your immediate experience is one of being seriously challenged - by authorities and by the way the system is put together. If you are to attain career success you are going to have to establish your own authority and carve out your own niche. You need to win respect through a determined approach. Plan your long-term goals and achieve them slowly and steadily, step by step.

Opportunities for Success

Having thoroughly established considerable success in your working environment, you are ready to build up one-to-one relationships through partnership in the period from September - 2016 to October - 2017, expanding your sphere of influence and reaching out socially. Fortunate meetings with cosmopolitan and wise people can bring happiness and a new optimistic view of your potential to make an impact on others.

After a period during which relationships prospered and your circle of social influence expanded, you are ready to delve deeper into the psychological dynamics

of intimate personal relationships in the period from October - 2017 to November - 2018. A deeper understanding of and empathy for others is developed, enriching your emotional and erotic life. You receive blessings both in the form of emotional generosity and material good luck.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 50. Three very important issues that make this year special are:

- Unpredictable events raise your adrenal levels and bring out the fighting spirit in the coming months, making you more inclined to take considerable risks. Whilst the samurai spirit is awakened, you may provoke others unnecessarily.
- You spiral deeper and deeper into a personal crisis because circumstances that have existed for some time, but which you are completely tired of, become more intense and acute. Ultimately you eliminate the past and leap into an unknown, yet empowering, future.
- There are tempting possibilities for personal growth and increased fame and influence, but they must not be at the cost of your principles or better judgment. You are confident that your views are right, or you are attracted to mentors with similar convictions. But you may be wrong.
