Dear Dawna,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 33rd year, you are in a positive development phase of your life, and the new structures you established as you entered your thirties are beginning to show their potential. This is a year in which you are filled with curiosity and there is much to learn. You may wish to attend courses, study and travel. Your communication talents lie in your profound psychological ability. You get to the core of matters and have investigative skills that are second to none. These talents are channeled through your whole personality and are an essential part of the image you project. Questions arise during the course of the year as regards the direction in which your destiny lies. You encounter people, or get involved with groups, who may not be aligned with your mission in life, but who nevertheless inspire you to consider an adjustment in direction. The crucial question when looking at the balance of your life right now is how much your emotions - and the anxieties in connection with survival - are a dominant factor in your relationships. Is this perhaps the time to create stable material foundations in your life rather than allowing fear to prevent you from creating attachments? Even more specifically it is worth considering whether a conviction that you should be true to yourself and your own agenda is preventing you from forming satisfying relationships where the spirit of compromise is uppermost.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your

vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life strategies for consolidating your earning power and getting paid what you are worth begin to succeed, though it can be hard going. Money is in short supply, but now is the time to put in place an economic framework that will give you security well into the future. These new influences started growing around January - 2015 and will ebb out around December - 2017. At the current time you know what your talents are, but you may be unsure whether you can live from them. You can. But you still need to conserve your resources and economize. Part of the key to prosperity is self-worth, and whilst success is as yet unproven you can facilitate the process by being restrained in your economic demands until you have established a firm foundation.

In this period of your life the focus changes from establishing security and economic stability to a more outgoing attitude that brings you into contact with people through travel and educational initiatives. These new influences start growing around December - 2017 and will ebb out around March - 2020. You become aware of areas in your intellectual development that need improvement, and the antidote to this is study. This is a long-term process of acquiring new mental skills that will serve you well, especially professionally, in the future. Initially you may be uncertain or shy, but the time demands overcoming inhibitions and reaching out to network with other people via all methods of communication. It is now that you develop the antennae that enable you to receive and broadcast knowledge.

Opportunities for Success

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from October - 2017 to November - 2018 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from November - 2018 to December - 2019 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your

economic base, which will provide the foundation for increased growth.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 33. Three very important issues that make this year special are:

- A period which demands all your strength and survival abilities. Confrontation with autocratic individuals or institutions exhausts your resources, leading to radical change at work. Intense sexual experiences transform your intimate life. Old traumas resurface and a psychological renewal takes place.
- You start a new period of mental excellence, expanding your wisdom, knowledge and understanding, meeting mentors who have the skills you need and traveling considerable distances to learn and teach.
- Your belief in yourself, your plans and your future runs into a major obstacle as the forces of the establishment stand in your path and demand a far more realistic assessment of what is possible. This is the time to readjust and redefine your goals for the future.
