Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. The Significance of your Age

After the many changes in the early forties, and the successful resolution of challenges in professional and personal partnerships last year, during your 45th year you are in a position to consolidate the structures that have been established, and build upon them. There is a realization that you have a duty to give back to society as well as receive, and you may feel you have the surplus energy to do something for the community. You probe the mysteries of power and sexuality and maintain inscrutable control over emotions. You are extremely active with group endeavors and friendships, although you often have to fight for acceptance, or deal with group hostility. With this new forcefulness and maturity the way is paved for promotion and success.

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.
