### **The Significance of your Age**

There could be a sense in your 69th year that if there are adventures in your life that you still want to experience, then this might just be the year to do it. During the course of your life you have discovered many of the qualities that make you unique in comparison to others. For you and your generation there is a willingness to experiment with new ways of thinking and communicating that revolutionize the way people connect. Your particular way of expressing your uniqueness in this respect is through fearlessly confronting issues of the soul that can be quite disturbing psychologically. You are willing to experiment with consciousness in the name of individual authenticity. There is nothing in your life to stop you pursuing interests that inspire you now. The very structure and backbone of your life supports you in making realistic moves to go out and make some waves. You can meet exciting and perhaps younger people now, who show you new possibilities for the future. And you can let go of bonds to friends and groups who no longer accord with your vision of the future.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life strategies for consolidating your earning power and getting

paid what you are worth begin to succeed, though it can be hard going. Money is in short supply, but now is the time to put in place an economic framework that will give you security well into the future. These new influences started growing around January - 2015 and will ebb out around December - 2017. At the current time you know what your talents are, but you may be unsure whether you can live from them. You can. But you still need to conserve your resources and economize. Part of the key to prosperity is self-worth, and whilst success is as yet unproven you can facilitate the process by being restrained in your economic demands until you have established a firm foundation.

In this period of your life the focus changes from establishing security and economic stability to a more outgoing attitude that brings you into contact with people through travel and educational initiatives. These new influences start growing around December - 2017 and will ebb out around March - 2020. You become aware of areas in your intellectual development that need improvement, and the antidote to this is study. This is a long-term process of acquiring new mental skills that will serve you well, especially professionally, in the future. Initially you may be uncertain or shy, but the time demands overcoming inhibitions and reaching out to network with other people via all methods of communication. It is now that you develop the antennae that enable you to receive and broadcast knowledge.

### **Opportunities for Success**

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from October - 2017 to November - 2018 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from November - 2018 to December - 2019 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities

during the age of 69. Three very important issues that make this year special are:

- A period when your romantic life becomes more intense, erotic and perhaps obsessive as deep anxieties about love and loss are awakened. You eliminate bonds that are not genuine and authentic; you have no time for pretense in love. Intense psychological interaction.
- A positive period of recognition and acclaim arises at this time as beneficial influences converge to make you feel good about yourself and confident about your prospects. This is the time to expand your horizons intellectually and through travel, and propagate your ideas.
- The efforts you have made in the past to build up a stable framework in your life start to bring concrete results and advantages. You approach challenges with a confident and mature attitude and are able to consolidate your position both professionally and domestically.
