**Dear Denise,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

During your 56th year self-worth issues come to a head in relation to your love life and economy. If you are lucky in love, then more luck is due now. If you are looking for a relationship, then there is likely to be one, and if you are currently in a relationship, then this is a time to consolidate and cherish it, not least by cultivating the art of romance. As your aesthetic values become more important to you now, you may want to spend more money on life's pleasures, and this brings your whole economic situation into focus. In love you want to be proud - of what you give so warmly, and of the respect you receive from your partner. Your values are creative and meant to celebrate life, love, children and play. Love and longing go hand in hand in your search for the ideal soul mate - if such a person exists. There are spiritual solutions. With your senses and desires so stimulated at this time, good judgment is required in the management of your economy. However you tend to be unresponsive to the advice of others, or too inclined to be guided by your personal convictions. Take care not to overreach yourself; seek the advice of experts. You need to be especially careful in matters connected with justice and the law. It is crucial at this time that you take stock of your life situation and make the adjustments necessary to work and relationships, so that they accord with your inner convictions of what your life is about.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your

vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

### **Opportunities for Success**

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October - 2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through

increased communication on all levels, you learn how to make sure-footed progress.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 56. Three very important issues that make this year special are:

- You feel an exhilarating urge to throw out ideas and beliefs that have been imposed on you by so-called intellectual authorities and experiment with a whole new set of convictions, especially as regards the future. Intercontinental travel and unconventional groups expand your mind.
- You are entering a stage of your life when there is a need to act out some of the unique aspects of your character, liberating yourself from some of the restrictions of society and presenting an alternative way of living based on authenticity and willingness to experiment.
- A series of challenges in relation to communication at work and at home, travel or project delays and other frustrations, slows you down and forces you to concentrate on learning basic skills and attending to detail. Think positive rather than succumbing to worry.
