THE ESSENTIAL YEAR REPORT...

At the turn of the 21st century, there were 6 billion people on Earth. No two of them were born on the exact date, time and place - everyone has a unique horoscope. This horoscope reflects personal characteristics that the individual has chosen to work with in this life. He or she meets parents, brothers and sisters, friends, teachers and finally partners, who evoke an evolutionary development for the soul.

Each individual has then a unique life that can be mapped astrologically according to the planetary movements after birth. World of Wisdom's Essential Year Report synthesizes three astrological methods to map the life journey of the individual:

- Progressions, which reflect a personal evolutionary, or karmic pattern present at birth
- Transits, which reflect collective trends that evoke specific behavior in the individual
- Solar Returns, which are horoscopes calculated for each birthday, showing what happens to the individual on the year in question. (For unknown birth times and yearly horoscopes starting on days other than your birthday, another astrological technique - horary - is used.)

This synthesis is complex. With 12 signs, 12 houses and 10 planets (with Sun and Moon) there are 1440 simple combinations. When the connection between planets are taken into consideration (aspects) and then transits and progressions, there are several hundred thousand combinations. Essential Year Report works on several thousand of these, the rest needs to be filled in with your memory and creative visualization.

This reading describes your own evolutionary journey. To understand it fully you need to understand the talents and challenges that the planetary positions at birth represent. The first part of every section of Essential Year Report explains therefore what you can expect in life based on who you are as a person. It is crucial to realize that what happens during the course of the life is constrained by these personal factors. If your love-life promises great happiness, then later trends will trigger this potential... and vice versa.

If you wish to know more in detail about your personal character and how to get the most out of your life, then our Birth Horoscope Interpreter will go into this deeply. The Essential Year Report is designed to map out the timing of events and the fulfillment of your destiny.

INTRODUCTION

During your 46th year there is a growing sense that professional ambition and family security is not necessarily the answer to all your needs. There is also the matter of your personal destiny, and questions arise now as to whether the path you are treading conforms to your inner evolutionary needs. The time has long gone when you could afford to chop and change as regards work and partnership, you need to focus on what has meaning for you as an evolving soul. Generally speaking, this mean being honest about who you want to spend time with and be influenced by, and this year you may wish to move away from some people, and towards others who are more in tune with your spiritual needs. The crucial question in your relations is just how much you should concentrate on your individual development, and how much you should dedicate yourself to relationships. Your current relationships will challenge you to find a balance, and perhaps you will discover there is greater harmony when you are more assertive. Even more specifically it is worth considering whether a focus on intense emotional interaction and sexuality has tended to produce upheavals and prevented you from consolidating your relationships on the one hand and creating economic stability on the other.

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2016 and will ebb out around January - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

From December - 2016 to December - 2017 you capitalize on the knowledge and experience you have garnered earlier to make a concrete success of your life. Good fortune smiles on professional endeavors in this period, and you can expand your sphere of influence. Influential people will support you, and if you strive for recognition, you will achieve it. If you go for your hopes and dreams now, then your expectations have a good chance of being fulfilled.

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from December - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 46. Three very important issues that make this year special are:

- A period that brings crises in your professional and domestic life that leads to deep-seated changes in connection with your foundations and your goals. Power battles force you to access your survival abilities and find the courage to close the chapter on the past and start anew in these areas.
- A period when your romantic life becomes more intense, erotic and perhaps obsessive as deep anxieties about love and loss are awakened. You eliminate bonds that are not genuine and authentic; you have no time for pretense in love. Intense psychological interaction.

These along with other influences will be examined later in the report.

Life Path

SEARCHING FOR MEANING IN LIFE

There are many spheres of human activity which are active at any one time, but each year there will be a focus on a particular area of your life that will absorb you more than anything else, and be at the center of the events of that year.

The theme at the age of 46 is openness to the world. This is the time to join with friends, groups or organizations who have an agenda for reform and change – people who evoke inspiration and excitement in every cell of your body. It is time to go on an alternative path, where you can express your own unique ideas, and associate with people who encourage original thinking. There is an international and humanitarian quality to the year ahead.

This theme channels that part of your nature that thrives on adversity, converting problems into opportunities. Your ambitions are awakened and you are willing to work hard to achieve long-term goals.

You are interested in experimenting with your life in the year ahead, which means that you are open to many exotic ideas and people from all corners of the earth.

Above all you will want to expand your boundaries in this period, which you can do by traveling in foreign lands and meeting new cultures, or by reading and studying to broaden your mind. You develop and express strong opinions about what is right and wrong, and seek to put your views across persuasively.

The focus of this influence is in your career, and the big question is how to define your ambitions and attain them. Dealing with leadership and authority is key, and either you must work with existing authorities in an executive position or establish yourself more independently, so that you can achieve concrete goals. If you play your cards right now you will gain success and increased status.

Certain challenges arise.

You may have to confront a pain threshold in the pursuit of your agenda, or there may be an uncomfortable sense that you are beyond the pale. There are distractions and you may have to attend to the wounded.

This is connected with a personal sense of being flawed or weakened that affects your self-confidence.

It may seem that someone is out to get you, or perhaps you invite aggression because you are too pushy or impulsive. You are thrown off course by these troubles, and it is wise to avoid provocation, and channel your considerable energy single-mindedly into your agenda.

This manifests strongly when you assert yourself in relationships, which you have a tendency to do this year.

Some factors help.

Your allegiances to groups and important friends stand you in good stead and keep you on the right path. Not only can you make progress in realizing your agenda with their guidance, you feel that you can make major steps towards realizing a higher mission.

In this process you need to defer to partners, rather than pushing your own independent views.

An original approach and ability to think outside the box enables you to make lightning fast progress. International contacts and travel galvanize your efforts and make this an exciting time, and a time of great new insights too.

This is connected with radically original ways of generating money, and unpredictable financial events.

There are unique opportunities and challenges affecting you personally right now, which can result in significant lifestyle and relationship changes or modifications. If you would like to see your life going in a different direction, now is the time to take the reins and choose a path which is uniquely suited to you, as described by the influences below.

Reorientation of direction

This is a period – if your birth time is reasonably accurate – when you ask questions regarding where your life is going and where relationships are going. There has been a growing sense of dissatisfaction in these areas and a need to pursue a course that gives life more meaning in the long term. If things have settled into a routine and you find yourself waking up with a feeling of being unfulfilled or unmotivated, the time has come to find a higher purpose. This can be done by getting involved with creative or social projects that inspire you, or through growing spiritual interests that make life more meaningful. If relationships are based on romantic illusions, then everyday reality will open your eyes. If business partnerships have been based on unfulfilled promises, then they will not deliver. This confusion about direction stems from a trend that lasts from February 2016 to February 2019 but it will ultimately bring clarity. By associating with people whose lives are subsumed by a higher ideal, you can find a life vision that transcends the everyday.

This initial section of the report is connected with your lifestyle and direction, and the factors described above modify this direction as you respond to outside influences and your own inner evolutionary process. Of these factors the most significant during the age of 46 are:

- a time of confusion in regard to your direction in life and your relationships, which is resolved when you find a higher ideal to be inspired by.
- a time of excitement and experimentation when you associate with original people and groups to express unique ideas about society and the future.

Career

TRANSFORMING FAMILY AND PROFESSIONAL GOALS

Every year there is a particular focus on your goals and ambitions, and a need to reformulate your mission in life and what you want to achieve. It is equally important to have a good foundation to build your successes on in terms of home and family.

A major theme as regards career during the age of 46 is the widening of your horizons both intellectually and geographically. Your wisdom and knowledge can be a source of professional advancement if you manage to publicize and disseminate this knowledge. Your judgment is a particularly crucial factor, as this is a time when it is very influential.

This theme is very much connected to ability to provide loyal support, tuning into the needs of others and helping them grow and be fruitful. You can also expect support from your family to achieve the goals you set yourself.

Your overview, positive thinking and wisdom serves you well and you will channel it in a specific fashion and in a specific area.

A major theme as regards career is in the area of personnel, where you assume a role of mediator. Your use of diplomacy helps forge bonds within the leadership. This is a year when you can trust your judgment, and rely on your personal tastes and awareness of style and presentation.

The main area to concentrate on this year is on issues of security and allaying economic anxiety. This is an excellent time for mobilizing your psychological talents too. To secure finance you need to deal with banks and other powerful institutions.

Certain challenges arise.

One factor that can undermine success right now is a strong element of unpredictability and restlessness than can bring job change or relocation. You are determined to do things your way and put yourself at odds with the establishment, which may simply end with you being out of play and on your own. You may want independence but avoid provoking the powers that be.

Challenges and opportunities arise at this time which can bring major changes or adjustments in both your career and your domestic life. The influences described below can bring concrete change, enabling you to live and work on a new level.

Career and domestic transformation

If your birth time is reasonably accurate, this is a period when you create an important transformation in

both your career and your domestic life. Circumstances have been wearing you down to such an extent, that you are no longer afraid of tackling the root causes, even if it means a career change or domestic relocation or upheaval. Power struggles in these areas can prove exhausting and insoluble unless you are prepared to make deep-seated change – and such change often means giving up something you have long been attached to. You encounter autocratic and manipulative people, but it is probably better to move on than do battle. By firmly closing the chapter on a period that has drained you, you can finally start to do something that is really meaningful and has psychological depth. This transformation spans the period from January 2016 to December 2019 and can lead to a fresh start professionally and in your family life.

The career section of this report explains influences in the current year that can cause you to adapt or change professional goals, and make use of opportunities that come your way. Overall, in the area of family and career the major developments you can expect are:

- a time when exhaustion at work or at home leads you to make some deep-seated changes that transform the foundations of your life.
- a time when travel and education play an important role in the expansion of your professional influence.

Personal development

INTEGRATION OF LOVE AND AESTHETICS

During the course of the year you will have a number of character-building experiences, which help you grow and develop as an individual. It is rare for any difficulty to last longer than a period of about eight months, and if you regard challenges that arise as a test that helps you become stronger, then it will be relatively easy for you to overcome them. Similarly, when events boost your confidence, it is pays to take advantage of the limited time available to capitalize on your good fortune.

this relates to your need for equilibrium and personal balance , in connection with expanding your horizons spiritually, intellectually and geographically.

An important feature around the age of 46 is a need for partnership. You are willing to put everything you have got into energizing relationships, putting your personal agenda on the back burner and making considerable compromises for the sake of others. There are strong attractions to charismatic and creative people at this time, perhaps because you tend to project your own creativity on others... you are at any rate willing to put others first. You understand that there is insight to be gained when you see yourself mirrored in the eyes of another.

You are empowered by the following.

This is a time when mental focus is important. This means developing your network of contacts, training your skills, educating yourself and generally being on the move. There may be a symbiosis with someone with whom you closely share your ideas and thoughts. Yet clarity is difficult to establish; stress levels are high and you tend to burn your fingers because there are too many irons in the fire. You seem unable to maintain objectivity, and plunge in blindly.

Your mind is on relationships during the course of the year – it seems there are several options – and communication with others.

Certain challenges arise.

You are in a period when major transformations of your personal character are on the agenda. You cast off falseness, throw away the mask, and assert yourself uncompromisingly. Your desire to be totally authentic can also lead you to be ruthless - for you, being true to your inner nature is non-negotiable. People can take it or leave it. The tunnel is long, and dark... but light starts to emerge at the end of it.

This specifically activates a need to transform intangible anxieties related to a sense of insignificance in a universe beyond your control

The personal development section of this report shows influences directly affecting your character, bringing both challenges and personal growth. Of these influences the most crucial are:

Feelings and security

You are in an ongoing process of emotional development, and the focus is constantly changing. As your unconscious mind absorbs impressions during the different phases of your life, you integrate greater depth and understanding of yourself and your relationships. There are specific areas of your life where this influence has a particular significance.

With your moon in your birth chart in Aries and in the 3rd House this relates to your tremendous emotional spontaneity and dynamism, and the network of contacts in your daily life will reflect how important it is for you to reach out to others.

Emotionally the age of 46 can be said to reflect a time when you are more sensitive and receptive than usual, particularly towards the suffering that you see around you. There is a compassionate motivation to alleviate the problems other people are going through, although there are also chaotic conditions in your own emotional life. Creative and spiritual interests bring growth.

One of the main areas where this influence will be felt is in the way you project yourself and the signals you send as to where your loyalties lie. Your emotional connections simply have the highest priority now.

You are empowered by the following.

There can be a degree of confusion about what it is you exactly want. You are very sensitive to suggestion and easily led astray or confused. Whatever it is you think will make you secure, turns out not to do the trick. As a result you learn that security can only be guaranteed when you find it within.

This activates a need to find a meaningful direction in your personal life and to clear away the fog that obscures your path.

Certain challenges arise.

During this period there is a dissonance between family needs and romantic needs. Your loyal commitment to those with whom you feel a mutual dependence runs counter to an equal need to be loved and appreciated, which can bring some polarization in relationships.

You enjoy the attentions of a loving partner during the course of the year. It's an excellent time for a relationship, and romance is a major theme.

There is an element of stress connected with your need for a stable attachment and an urge to go out into the world and fight for what you want. Impatience and irritation will undermine domestic harmony if you are unable to dampen

Some factors help.

A powerful urge to investigate the roots of your emotional conditioning at this time brings an urge to transform dependency and put family relationships on a more healthy footing. Everything is felt that much more intensely and you are unwilling to compromise in your quest for reform.

During the year ahead you continue a trend of searching for insight into the meaning and direction of your life, and engage in studies that can provide answers to the many questions you have been asking. At the same time there is a greater urge to travel and expand your cultural horizons, making your life more cosmopolitan and intellectually stimulating. Overall this brings a happy and positive frame of mind, just as long as you feel free to pursue your interests. You are active and engaged, and get satisfaction from crossing swords intellectually with others. Studies afford unexpected pleasures and enable you to better understand emotional drives.

A great deal of your emotional energy – in practical terms at least – is focused on that area of your life that is concerned with your persona and the impact you make on other people. Highest amongst your list of priorities are the important emotional bonds in your life, especially to home, family and children. You declare your allegiances and work on these bonds, but because of the nature of feelings, your mood swings as relationships fluctuate... you are supersensitive and more vulnerable than usual. You are prepared to fight for those you hold dear and strongly motivated to build a nest where everyone feels secure.

As you grow and mature emotionally, the focus shifts from one area of life to another, and you instinctively absorb the lessons connected with the many different emotional facets of your life.

- Around November 2017 there can be some surprising opportunities coming your way, if you can give yourself the space and freedom to pursue them. It is a time of independence and personal growth, when contact with original thinkers inspires you to experiment and make changes in your life, shaking off stifling habits and opening up to the future. There are adventures with the family, or by yourself... you are restless for change. Travel opportunities to exotic destinations arise.

The changes and insights you experience in this connection relate to your search for alternative life views to gain perspective on your life and your future.

- Around January 2018 there is activity and excitement – perhaps even some conflict as you have no qualms about making known what your needs are. You have the energy and enthusiasm to go for what you want, even if it means taking a risk or two. There is so much adrenalin in your system at this time that you are inclined to be rather impulsive. Still, nothing ventured, nothing gained.

As one of your greatest assets is the will to put in tremendous effort to attain your desires, this influence will invoke the urge to protect what you have and fight to gain more.

- Around April 2018 there are career opportunities that can bring increased contact with the public and the provision of services that cater for collective needs in some way. This is also a good time for family matters, for example creating better conditions for children or improving living conditions.

- Around June 2018 there are some very pleasant developments in your love life and you can expect a harmonious period with your family. Perhaps this is because you know how to listen and empathize, and this brings out kindness and devotion in others. If you are looking for love, then the gods are on your side; this is a time to enjoy the good things that life has to offer.

Love and status go hand in hand for you, and romantic attraction at this time takes place with those of high status. This is also a time with a strong emphasis on business partnerships.

This section maps out the timing and intensity of influences in your life that absorb your interest on a daily

level, profoundly affecting everything, from your work to your family life. These influences constitute your emotional growth during the course of the year, and the main themes are:

- a time of optimism and expansion both intellectually and through travel, which brings new insight into the meaning and direction of your life.
- a time when you retune yourself to your emotional priorities in relation to yourself and those with whom you have a family connection.

Mental Development

PROLONGED LEARNING AND STUDY

Gaining skills through education and other forms of training is a major ingredient for success, both professionally and in relationships. Through developing your communication talents you can make contacts and build networks which facilitate progress.

With Mercury in your birth chart in Libra and in the 9th House this relates to your grace of expression and diplomatic talents, which takes you on many intellectual journeys as you seek to widen the scope of your mind.

During the age of 46 your mental focus is on honing your diplomatic skills. The focus is very much on the important relationships in your life, and how to create harmony in them. Aesthetic considerations are an important part of your decision-making during the course of the year.

Your mental abilities are channeled into partnerships and external relationships during the course of the year. You will undoubtedly meet a lot of new people and generally encounter people in your daily life. Through these contacts you perfect your ability to relate, listen and reach out to others.

A seriousness of approach characterizes projects now. Not taking anything for granted, you channel a natural planning ability and desire for self-improvement into communication and educational ventures.

The influences described below will bring additional opportunities and challenges in the field of communication. By rising to educational challenges and improving communication skills, you can add to your skills and capabilities.

Exasperation

There seem to be difficulties and delays in all sorts of ways in this period. Whether it is connected with travel, communication, relations or education, there are knotty problems that take time and can be the source of considerable frustration. This is a testing period mentally, and short cuts are not permitted. If projects seem overwhelming, divide them into smaller tasks and concentrate on them rather than thinking about the whole project. It is important to plan well now, and to put more effort into the task at hand. You need to learn the basic skills, so be patient – with yourself and with your colleagues. This mentally challenging period lasts from December 2017 to October 2019 and you will emerge from it with a much better grasp of the issues than you had at the beginning. The essential thing is to avoid worry and negative thinking, which will only wear you down physically and mentally, and to rise to each small challenge with determination and a positive attitude.

Your mental evolution is a product of the people you encounter during your life, who evoke certain qualities in you, as well as your contact with institutions of learning and educational media. The lessons you learn give depth and breadth to your personal message to the world. This year new opportunities arise.

Applying communication skills

If your birth time is precise the period around September 2018 is a favorable time for both career and family matters. On the career front you learn new skills and how to apply them – this can be in business, sales, marketing or any form of teaching and communication. You are also likely to have the good company of colleagues who work happily together with you and are a good influence. On the family front this is a great time for gathering the family together and talking, for children generally and for establishing a good environment for work at home – a study for example. Your natural teaching abilities come to the fore, and the lines of communication are opened. It is a good time for working with siblings.

The influences described in this section challenge you to develop intellectually, socially and in relation to others. Of all these influences, in terms of the enhancement and development of your mental skills the most significant will be:

- a time of frustrations and delays in travel and mental pursuits, requiring patience, discipline and good planning.
- a time when your connections and communication skills help you advance in your career and domestic life.
- development of your diplomatic ability and communication skills in relationships.

Values, Love and Relationships

TRANSFORMATION OF LOVE

Your need for relationship is very much dependant on your tastes, and early family experiences of bonding. These factors determine whether you feel attraction or not, or whether you are simply indifferent. People of similar tastes are instinctively attracted to you, as you are to them, and this is the basis of personal harmony in your relationships.

With Venus in your birth chart in Libra and in the 10th House this relates to your need to have a truly balanced and rewarding love-life, which you will express through your career, seeking a mate with status and a position where your diplomatic talent is useful.

In relationship matters you have a need to adopt a low profile during the age of 46. You will not be able to insist on the satisfaction of your needs – quite the opposite, it is your duty to attend to the needs of others. The key word here is service – keep expectations low and take pleasure in helping others. This is a year where you want to attend to practicalities rather than be distracted by romance, and your working relationships can be more important than partnership.

There is focus on a major relationship during the course of the year, with a strong romantic attraction to the partner. You have a need to cherish another now, and to be cherished in return. If single you are prepared to go out of your way to find the love of your life, and if in a relationship your romantic interaction will be a major source of pleasure during the year.

You are empowered by the following.

This can hardly fail to be a romantic and passionate year. You are drawn deeper and deeper into intimate relations and fiery erotic attraction, and there is nothing for it but to let go and discover the rejuvenation quality of animal passions. If single you will be swept off your feet, if attached, then – if your head is not turned – you will go through heaven and hell because of your attraction.

Certain challenges arise.

If expectations in your relationships are unrealistic, then you will experience disappointment. The antidote is not to ask for what cannot be given, or give your heart to someone who cannot reciprocate. If there is loss, then it is OK to be sad... indeed sorrow can put you in contact with a collective energy which leads to spiritual renewal.

Love brings frustrations, and it seems that you neither get the affection you desire, nor the approval you need. Keep expectations low – this is a time when you are being tested. Believe in yourself – this is just a stage you are going through to develop strength of character and self-sufficiency.

As authorities are perceived as limiting career options at this time, you need to patiently pursue your ambitions whilst shouldering heavier responsibilities.

Some factors help.

You seek depth and intense erotic contact in relationships now and are not prepared to accept superficiality. As you strive to familiarize yourself with the psychological factors behind attraction, you can create a transformation in both your life and the life of loved ones. Relationships that you value will be revitalized, relationships that you don't will be discarded.

There are other major changes affecting relationships and values at this time, and the influences described below will bring opportunities to modify your need for others, and ultimately develop better ways of relating authentically.

Transformation in attachment and values

This is a time when the important relationships in your life undergo an intense process of transformation. Economically too, there are deep seated changes as your values transform and are replaced by new. Attachments that have exhausted your resources need to be eliminated, even if there is an initial loss. In your love life far deeper demands are made on you emotionally and sexually, and you – or partners – tend to get obsessive, autocratic, controlling or jealous, because a primeval anxiety about loss of love is dredged up. Anxiety creates a tendency to be dominating or submissive, when true love can only thrive when people are free. This romantic intensity spans the period from January 2017 to December 2020 and you will strengthen those relationships you value and eliminate those relationships that have outlived their time. In the process you will discover a new authenticity in the expressing of your love and affection, and any pretense will disappear.

Quite apart from the specific changes that come at the age of 46, you now reach a stage in the process of your evolution in terms of relationship that enables you to integrate new values in your life through encounters with individuals or groups where you form a bond of one sort or another.

Family and career satisfaction

Assuming that your birth time is accurate the period around August 2018 is a time when you can experience emotional blessings at home and material success at work. Happy events with children bring out your loving nature, and caring supporters boost your net professional worth – perhaps helping you to get funds. This is the time to work more with people, or to trade with things of beauty. Likewise this is an excellent time to invest in housing or do something to create a beautiful and harmonious environment at home. A blossoming of potential now creates a comfortable foundation for growth and happiness.

The influences described in this section will all have a significant effect on the way you relate to the world. In terms of your material values and matters of love, the most important of all these influences will be:

- a time of intense transformation in relationships when anxiety can lead to the extremes of control or subservience. Values change and you emerge with a more authentic love life.
- a happy event both at home and at work brings higher quality of life.
- a diffident or hesitant attitude to love where the focus is on practicalities.

Sex, work, willpower and assertion

GOING FOR VICTORY

Nothing is achieved in life without the force and determination to go for what you want. There are battles to be won and obstacles to be overcome, and this means being able to assert yourself, and to mobilize your courage to face challenges and overcome resistance.

With Mars in your birth chart in Aquarius and in the 2nd House this relates to your need to fight for your ideals, even if this brings social alienation, and you channel much effort into asserting your worth and improving your material situation.

As regards personal drive the age of 46 is a year when there is a lot of work to be done, and you throw yourself into it, organizing people and systems. You will probably encounter some trouble with people and the work environment, which it is your duty to solve.

Your energy and will is channeled into relationships, but not in a very peaceful way. There may be battles to fight and lines to be drawn in the sand. You may also feel attacked, and if you do, then perhaps this is the time to assert yourself.

Certain challenges arise.

Efforts and initiatives are undermined by circumstances that seem beyond your control. This could be because you are no longer inspired by the same old work. Pursuing creative projects brings more satisfaction. In your dealings with others you can be deceived – take care.

There are frustrations whichever way you turn, but ultimately they serve to build up your willpower. Authoritative or dominating men can be a pain, but you should avoid kicking against the pricks. Build up muscle power through determined training.

Some factors help.

By accessing the deep inner forces that have long remained hidden, you discover an amazing surplus of strength to perform superhuman tasks. This is an excellent year for taking a failed enterprise and transforming it. On a psychological level you purge old demons and emerge re-energized.

There are other powerful influences at this time, which bring both challenges to your autonomy and independence, and opportunities for leadership and self assertion. The influences described below bring out your survival abilities and evoke a fighting spirit that can ultimately empower you.

Bulldozing the opposition

Nothing can stop you getting what you want in the period from November 2017 to October 2018, as you have the confidence to go for it, and you are willing to take risks. This gung-ho attitude can attract considerable disapproval from people who know better, and you can waste energy discussing with or fighting people who have different views than your own. If you can channel your energy constructively, you can expand your sphere of influence and intellectual capacity, but your appetites are so strong that you are inclined to make misjudgments. You may want to develop your body through fitness and sport – it is at least a great channel for your growing energy. Your sexual appetite is also strong at this time, and you can bend the rules to satisfy your desires. There is an attraction to foreigners, adventurers and intellectuals.

The influences described in this section will bring changes in the way you strive for achievement. Of the many influences affecting your energy, sexuality and assertiveness this year the main areas to be aware of are:

- a time when you are unstoppable, but at the same time you tend to be impervious to how other people feel when you go for what you want.
- a lot of work, and some trouble with colleagues, but a productive year.
- a lot of work, and some trouble with colleagues, but a productive year.

Collective trends

PRACTICAL METHODS FOR DEALING WITH ANXIETY

The influences mentioned so far in this analysis have an effect on your psychological evolution and fate which is strictly personal. There are other influences on your life based on your relationship to the collective, which can be just as exciting and stimulating for you, even though they may not evoke dramatic personal change.

Discovering the cracks

In the period January 2017 to November 2018 you are immersed in a power play with forces much greater than you – whether it be something in the environment, involvement with powerful authorities, or with people and institutions that control a great deal of money. There may be a secretive element to your dealings, and it is difficult to know what is really going on. On an inner level too, deep emotions may want to break through to the surface, though it may seem crucial to keep them contained. Under these seismic pressures, cracks appear in the surface of your life. Perhaps you have to ask yourself whether the foundations you are building your professional or family life on are rooted on stable ground? You have a responsibility to investigate the psychological issues that are formative for your character – only in this way can you eliminate unsafe structures and replaced them with something that lasts.

Insight into the future

You encounter influential groups in the period October 2017 to September 2018 who bring insight that runs at cross purposes to the views that have previously informed your choices in life. In this sense you are at a crossroads of understanding, and making the right choices now can have positive consequences for the future. You may find that some people want to lay down the law, but you may also find that the beliefs espoused by these people inspire a vision of hope for your future. Perhaps this is a time when your good karma matures, bringing pointers to the direction you should go. Still, it is wise to be on guard in connection with self-righteous people who brook no dissent. Travel and further education are favored.

During the age of 46 you are in a phase of your personal evolution which is to do with making a new start. A new 30-year cycle is beginning, and the sense of aimlessness or dissolution that characterized the previous period is over. Everything is new - it is almost like being reborn - and new initiatives are taken which, although they will not bring immediate results - will deeply affect your future development. In many areas of your emotional life you can start from scratch with a new personal authenticity. This is the time to give expression to who you are and what you want for yourself; it is not a time to make too many compromises for the sake of others. What you set in motion now will crystallize into the life and character of the person you are to be, so follow your individual motivation and listen to the inner voice of truth.

Seen from another viewpoint, there is a purposeful evolution in your life, and each of the events that arise can be seen as milestones on the journey of your soul. There are some fields of your experience which you are all too familiar with, and perhaps you need to relinquish your attachment to them. Other areas of

experience present new and interesting challenges for you soul, and require total immersion.

The primary evolutionary focus in the year is on finding a balance between your own personal needs and the needs of others. A crisis atmosphere in your important relationships leads you to the understanding that satisfaction at this time of your life comes when priority is given to relating, rather than independence. You can learn about yourself through the eyes of another, and this knowledge brings you further along your evolutionary path.

The collective influences described above are very much related to the generation of which you are a part, and opportunities now arise to capitalize on trends that your generation will resonate to. The most important of these are:

- a time when there are dealings with implacable people and institutions, exposing your anxieties about survival in society.
- a time when influential people and groups exert an influence on your thinking about the future. Travel and intellectual pursuits bring a change of direction.

The influences described in this report are based on planetary cycles, transits of the outer planets and progressions of the inner planets in an integrated description which also takes into account the major factors in your birth horoscope. Thousands of factors are taken into consideration, making this report completely unique to you for the next twelve months. Rather than make specific predictions, we have tried to describe how you can make the most out of the many changes that are taking place. By defining what you really want, and going for it, you can weather the storms and currents described in this report and come safely to the destination that you are aiming for. It is in this context that the major events of this year should be seen.

Some of the themes from this year will continue into the next year, and some completely new themes will arise. Looking at the three most important events at the age of 47 you can expect change in the following areas:

A period when your romantic life becomes more intense, erotic and perhaps obsessive as deep anxieties about love and loss are awakened. You eliminate bonds that are not genuine and authentic; you have no time for pretense in love. Intense psychological interaction.

A period that brings crises in your professional and domestic life that leads to deep-seated changes in connection with your foundations and your goals. Power battles force you to access your survival abilities and find the courage to close the chapter on the past and start anew in these areas.

You run into seemingly insurmountable obstacles in your career, which can stop you in your tracks. No progress can be made in your current direction. Domestic developments are challenging, as are relations with parents. The clock stops, and need to be reset with new goals and ambitions.

These events - both good and bad - can be seen as a treasure chest for the personal journey of your soul. Every event that arises has meaning for you and is a result and consequence of previous actions. If you are able to see the challenges that arise as opportunities for constructive change, then your growth will be rapid, and you will be able to truly appreciate and enjoy the many positive events that also arise during the course of your year.
