Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During the course of your 25th year there are a number of developments that take you by surprise, and you learn that you can take nothing for granted. Life is an unpredictable affair. When change comes out of the blue, it also brings opportunity, so now is the time to find out just how prepared you are to take a few risks. If you are in a rut, you make a move to get out of it. Long-distance travel is favored, as well as meetings with exotic cultures, untraditional people and unconventional subjects. This is a time to creatively manifest your unique qualities. For you and your generation there is a willingness to experiment with traditional structures in society, and you are inclined to stand for the rights of individuals to carve out their own path. Your particular way of expressing your uniqueness in this respect is through fearlessly confronting issues of the soul that can be quite disturbing psychologically. You are willing to experiment with consciousness in the name of individual authenticity.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges lie in relationships. Living with or relating to another individual and seeing your strength and flaws reflected by this

person is a major learning experience. Any weaknesses in the way you have historically related to other people are exposed now, and your future success depends on you resolving them. This influence started growing around January - 2015 and will ebb out around December - 2017. You encounter tough people who try to impose their authority on you, and you will have to judge how much you are prepared to commit to long-term relationships, and where to set limits. Learning to share your time with another person is part of a maturing process for you now, and the more effort you put in to it, the better the results.

In this period of your life there is a transition in the way you relate to partners and the world. Over the last few years you have made a lot of effort to create harmonious and rewarding relationships, and to a large degree lived up to your responsibility to others, helping those you love if they have been in difficulty. A new period is dawning that challenges you to break down the barriers that prevent true intimacy on an emotional and sexual level. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is not so much what you do or what you say that counts now, but how well you open up emotionally, how vulnerable you dare to be, and how brave you are in confronting your inner demons.

Opportunities for Success

After having built up comfortable circumstances in your domestic life, what is important for you between September - 2016 and October - 2017 is to appreciate the fruits of having a satisfying base, so that you can express yourself through creative activity and enjoy the art of living. Expansion and satisfaction come from living life to the full - through sport, festivity, love, children and romance. This is the time to fully be yourself without reservations or doubt. Larger than life characters will show you how through encouraging you to celebrate existence.

After a period of living life to the full through creative projects, children and festivities, new possibilities arise in your working environment from October - 2017 to November - 2018 because of opportunities abroad, or through an expansion of your area of expertise and encounters with intellectually inspiring colleagues. This is a time to expand the influence of your ideas and disseminate information that you really believe in. It is possible that there is more work to do, but it is more interesting work and it brings personal development for you.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that

present themselves, the stage is set for a series of developments and opportunities during the age of 25. Three very important issues that make this year special are:

- A period when there are peripheral events in your life that are so unusual and extreme that your ideas about the freedom of the individual are changed for ever. You realize how frail the human soul can be in its encounter with cosmic forces unleashed by fate and the universe.

- In terms of survival issues connected with work, and your drives and sexuality, this is a time when extreme conditions evoke drastic action and far-reach decisions for change. Power battles evoke an inner psychological strength that you never knew you possessed.

- A period when there is a rite of passage that sees one illusion after another being ruthlessly examined and discarded. You are no longer prepared to see your energy being dissipated by your own folly. You realize that you cannot attain your goals by frittering energy away on dreams.
