Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During the course of your 54th year, you are still in a period of dynamic consciousness growth that sees you experimenting with your life on several fronts. You are open to any changes that bring renewal and excitement, and this can bring international travel and input from cultures very different from your own. This is the time to embrace new technology and surf the wave of change in society, rather than holding on to established tradition. For you and your generation there is a willingness to experiment with the way you are integrated into the work force, and you are inclined to embrace new and revolutionary methods. Your particular way of expressing your uniqueness in this respect is through embracing a career that expresses your independence and originality. You want to expand your own consciousness and that of the world through ground-breaking work. At the same time there is a dawning spiritual sensitivity, and activities connected with nature, music or religion can bring inner enrichment. Furthermore this year is a time of emotional rebirth, and your feelings connected with home and family come strongly to the fore. Basically, when your emotions are aroused, you tend to control and suppress them, which unfortunately creates a rather intense atmosphere. You seek emotional catharsis to release pent up feelings. Much of your emotional life is expressed through the inner world of your imagination, and solitude is often either imposed on you or chosen. Now is the time to confront latent emotional issues connected with bonding that can relate back to your childhood, so don't be surprised if this a bit of an emotional roller-coaster year when you are concerned about creating security and a safe base.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2015 and will ebb out around December - 2017. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

In this period of your life you feel that you have set in motion a new plan for your life. The framework is in place, your intentions have been made clear, and when you examine your feelings, you know you are on the right track. Now you enter a transition phase that requires concrete results. You need to consolidate your position and nurture your resources, so that you can actually achieve the new goals you have set yourself. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In this coming period you will be crucially aware of a shortage of funds, and this is an ideal motivation for increasing your earning power. You need to build the structural framework for future prosperity, and this has to start with economy and restraint. Learning about saving and budgeting are key issues, but it is also important for you not to underestimate your potential worth.

Opportunities for Success

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from October - 2017 to November - 2018 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are

interconnected, when you feel empathy and solidarity for fellow human beings.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 54. Three very important issues that make this year special are:

- There are heavy challenges at work and in relation to dominating male authorities that initially undermine confidence in your strength and personal autonomy. There may also be lack of sexual self-confidence. Where there is a will there is a way - this is a time for working on personal power.
- A series of educational or communication challenges undermine your confidence in your abilities. Through mental focus and improvement of skills you rise to the challenges and become more adept, even if you are initially overcome by worry or dejection.
- An awakening of your capacity to experience love at its highest level, especially through spiritual experience and the arts. Whilst this is a romantic period, personal love is often experienced as illusory or unrequited. It is the universal nature of love and compassion that enriches.
