Dear Diana,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 38th year there is a sense of exotic promise. New experiences are awaiting on the horizon, but you may not know what they are to be as yet. After a period of effort and measured growth, the urge is now to pull out all the stops and expand your horizons. It may seem as if your local environment cannot supply the inspiration that you need, in which case you may start investigating possibilities farther afield. There is a growing sense that meaning is more important than achievement, and therefore a need to expand on the new circle of acquaintances you acquired last year to attain personal growth and consciousness change.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenge is how you adjust to a phase in your life when material ambitions and professional achievement do not provide all the answers. There is a gnawing dissatisfaction, and a feeling that the many results you have attained in recent years are now getting more difficult to attain, or when attained are not inspiring enough. This is an influence that starts growing around January - 2015 and will ebb out around December - 2017. New goals and a new mission in life will come at the end of this phase, but right now if you want

happiness, you need to explore and structure your inner life. This means developing your spiritual nature, and enjoying creative processes that arise when you withdraw from the rat race and spend time on your own. It may be a lonely period, but if you build spiritual foundations, the next phase of your life will be rewarding.

In this period of your life there is a major transition which inaugurates a whole new epoch. In many ways this transition is welcome, because over the last few years it has seemed extremely difficult to get new projects off the ground, and in your heart you have realized that this is because the old formulas for success are redundant. Now you begin to get a glimpse of future possibilities. This is an influence that starts growing around December - 2017 and will ebb out around March - 2020. At times it seems that the challenges are heavy, but just to be able to envision a new plan or path for the future is extremely empowering, and much to be preferred to the sense of dissolution you experienced in the past. Knowing where to put your energy and commitment, you are willing to discipline your life, organize your time, and accept heavier demands for the sake of building a new path and new life goals.

Opportunities for Success

From September - 2016 to October - 2017 you capitalize on the knowledge and experience you have garnered earlier to make a concrete success of your life. Good fortune smiles on professional endeavors in this period, and you can expand your sphere of influence. Influential people will support you, and if you strive for recognition, you will achieve it. If you go for your hopes and dreams now, then your expectations have a good chance of being fulfilled.

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 38. Three very important issues that make this year special are:

- A period which demands all your strength and survival abilities. Confrontation with autocratic individuals or institutions exhausts your resources, leading to radical

change at work. Intense sexual experiences transform your intimate life. Old traumas resurface and a psychological renewal takes place.

- A series of educational or communication challenges undermine your confidence in your abilities. Through mental focus and improvement of skills you rise to the challenges and become more adept, even if you are initially overcome by worry or dejection.

- A time when efforts to attain success and build secure structures are undermined. It is the nature of this time in your life that frameworks are dissolved. This attunes you to a higher purpose and a deeper understanding of the hidden laws that inform our fate.
