Dear Priscilla,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

You are in full swing during the course of your 62nd year making changes in your life to accord with your vision of the future. You are not interested in being pigeonholed by the system - on the contrary you feel that you cannot waste this opportunity to pursue interests that are intensely personal and unique to you. For you and your generation there is a willingness to experiment with new forms of self expression and you are inclined to seek unconventional ways to promote yourself. Your particular way of expressing your uniqueness in this respect is through your choice of friends and allegiances. You embrace outsiders in society as a healthy alternative to the stranglehold convention has on the human spirit. There is a sense that you have never had quite as much freedom to decide the future as you have now, and you can make the most of it by breaking out of the structures at work and home that prevent you from spreading your wings. This is not a time for building up and consolidating - it is rather a time to experiment with different lifestyles that you can build on later.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and

communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

Opportunities for Success

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from September - 2016 to October - 2017 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities

during the age of 62. Three very important issues that make this year special are:

- Current relationships are shaken up as you search for more freedom and excitement. Values change and you make unconventional choices, travel long distances for love, and enjoy relationships with fringe groups and people who walk on the wild side.
- Your belief in yourself, your plans and your future runs into a major obstacle as the forces of the establishment stand in your path and demand a far more realistic assessment of what is possible. This is the time to readjust and redefine your goals for the future.
- You enter an exciting and stimulating period which radically extends your horizons. This can bring long-distance travels and contact with alternative cultures, and it can also bring new intellectual interests of a non-conformist nature.
