**Laurinda: November 18, 1986**

**Report for November 18, 2017 to November 18, 2018**

**Dear Laurinda,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

At the age of 31 you can slip into overdrive as you begin to reap the benefits of the changes that have been so much a part of your life for the past two or three years. The basic structure is in place for you to expand your influence and harvest some initial results. There may be a hint of overconfidence, but your potential for good fortune is strong, and an optimistic attitude attracts success. The inner expanses of your soul stretch beyond your own identity and into the universe. You seek meaning in cosmic truth and your heart goes out to those who suffer in this world, even though - or perhaps because - your own capacity for suffering is so great. You have psychic talents based on a sensitivity to and understanding of what is unseen. This is expressed in the way you project a larger than life personality, and celebrate love, children and creativity with great gusto; you enter a period when there will be confidence-enhancing experiences in these areas.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life strategies for consolidating your earning power and getting paid what you are worth begin to succeed, though it can be hard going. Money is in short supply, but now is the time to put in place an economic framework that will

give you security well into the future. These new influences started growing around January - 2015 and will ebb out around December - 2017. At the current time you know what your talents are, but you may be unsure whether you can live from them. You can. But you still need to conserve your resources and economize. Part of the key to prosperity is self-worth, and whilst success is as yet unproven you can facilitate the process by being restrained in your economic demands until you have established a firm foundation.

In this period of your life the focus changes from establishing security and economic stability to a more outgoing attitude that brings you into contact with people through travel and educational initiatives. These new influences start growing around December - 2017 and will ebb out around March - 2020. You become aware of areas in your intellectual development that need improvement, and the antidote to this is study. This is a long-term process of acquiring new mental skills that will serve you well, especially professionally, in the future. Initially you may be uncertain or shy, but the time demands overcoming inhibitions and reaching out to network with other people via all methods of communication. It is now that you develop the antennae that enable you to receive and broadcast knowledge.

### **Opportunities for Success**

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from October - 2017 to November - 2018 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from November - 2018 to December - 2019 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 31. Three very important issues that make this year special are:

- You start a new period of mental excellence, expanding your wisdom, knowledge and understanding, meeting mentors who have the skills you need and traveling considerable distances to learn and teach.
- A time that makes you keenly aware of what is missing from your life and work that would satisfy your dreams and imagination. Music and the arts bring renewed pleasure, repetition and routine undermine your spirit. This is the time to express your creative communicative powers.
- A time that brings tremendous stimulus to your imaginative powers, and awakens dreams of a utopian future. Without the ballast of common sense, top-heavy dreams will collapse. Correctly channeled this is a time of spiritual development and growth.
